Door Lock Battery Packs & Door Lock Cleaning Cards

5 Reasons why Powerhouse Two should be your Electronic Door Lock maintenance solution!

1. Power Packs are loaded with the exclusive Power XP power cells. The only cell ever developed for the unique demands of electronic door locks.
2. Power Packs are available for all major door lock models, and are made to exceed manufacturer standards.
3. Power Packs are built to be the only approved original equipment Power Packs for VingCard, Timelox, and MIWA door lock manufacturers worldwide and go in every new installation.
4. Power Packs are built to rigid specifications. Double welding, tight and clean shrink wrapping, and integrated strain relief all combine to make the best pack available.
5. Lock Cleaning Cards prevent transferred oil and dirt build up when used often, and result in long lasting reliable operation.

10A358

Use this handy cross reference chart to match your clients existing pack model to the Grainger models. Additional packs and custom designs are available through Grainger Sourcing.
