20C460	Edge Logo Cord (9706)
20C461	Sleeve Leash (9707)
20C462	Neoprene Strap (9708)

VAPOR SHIELD™ "MILITARY GRADE" ANTI-FOG
This "military grade" anti-fog is completely resistant to haze, fog, and condensation in the most extreme conditions and temperatures.

STANDARD ANTI-FOG
Anti-Fog coating offers clarity in humid, hot, or extreme cold circumstances.

FIT OVER RX
Safety-rated Fit Over Rx glasses comfortably fit over most prescription eyeglasses to ensure safe, clear vision.

EVA FOAM GASKET
When working in environments with high levels of airborne debris, dust, or wind, this technology creates a seal that keeps foreign particles away from the eyes.

XL (WIDE FIT)
To accommodate the diversity of head shapes and sizes, the Wide Fit frame has an additional 0.87 in (22mm) of width at the temple.

WELDING
Welding lenses protect the cornea and filter the most harmful levels of infrared and UV light produced during gas welding, brazing, and torch cutting.

MULTI-FIT NOSEPIECE
With an adjustable nosepiece, a perfect fit can be achieved for a variety of facial structures by bending each flexible nose pad inward, outward, forward, or backward.

MAGNIFIERS
Magnifiers are perfect for viewing intricate work and fine details. They are available in three magnification powers (1.5, 2.0, and 2.5).

POLARIZED
This technology can be compared to horizontal blinds where slats create a filtering layer that blocks glare from above and reflected light from below, allowing only direct light rays to enter. This reduced glare is ideal for environments with bright sun, snow, water, or sand.

LADIES FIT
Won't ride the cheekbones, touch eyelashes or snag hair.
