14A769	NICKEL PLATED STEEL FOR 1.5" & 2" WEBBING
14A770	STAINLESS STEEL FOR 3/4" & 1" WEBBING
14A771	STAINLESS STEEL FOR 1.5" & 2" WEBBING

Metal Cam Buckles
Used for heavier than plastic holding needs. Spring cam action with teeth to hold webbing in place.

Plastic Cam Buckles
Great for making belts. Holds webbing in place by pushing down on the cam lever. Pull to release. (Must use slip lok with Cam Buckle)

Slidebar Buckles
Thread and cinch quickly, easily released by lifting up end tab. (Must use slip lok with Slidebar Buckle.)

Side Squeeze Buckles
Allow easy snugging up of strapping at both ends with quick release by pressing on side of buckle.

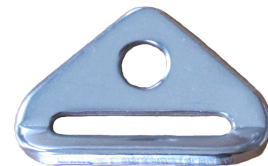

Plastic

Metal

Slip Lok Buckles

Can be used to make loops and replace the need to sew. Slip Lok Buckles are needed in most buckle applications.

Anchor Plates

Mount to a secure surface to create an anchor point.
