Floodlight Series Lifetime Guarantee Against Rust and Corrosion. 150 Watts Maximum

Designed specifically to withstand the corrosive atmosphere of coastal areas, these directional floodlights can weather the most severe environments. Rustproof. These versatile luminaires are constructed of virtually unbreakable, nonconductive **polycarbonate** and provided with stainless steel hardware. Perfectly suited for landscape, flood, and spot lighting. Surface Mount Wiring Box accessory eliminates the need for a recessed junction box in wall and ceiling installations.

Specifications

Specific	alions			
Socket Housing/ Cover:	Injection molded of UV-stabilized polycarbonate . Lampholders on Model 201 rotate independently. Threaded pivot of Model 150 is .50" NPT.			
Socket:	High-temperature phenolic with medium base nickel-plated copper screw shell. Rated 250V, 660W, with wire leads insulated to 105°C.			
Gasket:	Silicone rubber washer (.125" thick) is permanently secured within lampholder to seal socket and wireway from moisture with insertion of lamp. Fiber washers provide watertight seal between pivot joints.			
Hardware:	Stainless steel phillips truss head screw and wing nut allow angular adjustment to all lampholders. Crossbar and stainless steel mounting screw included with Models 101 and 201. NPT nylon locknut (.50") included with Model 150.			
Lamp:	Provided by others. Uses brass-skirted Par 38 lamp. 150 watts maximum. Recommended lamp: 90 watt Halogen 130 volt for greater efficiency and longer lamp life.			
Hood: (optional)	One piece, injection molded UV-stabilized polycarbonate. Snap-fit mounting requires no tools or hardware. Helps with light control. Adds an aesthetic value to any application.(Recommended for Lamp-up applications.)			
Surface Mount Wiring Box: (optional)	For Models 101 and 201 only. One piece injection molded of UV-stabilized polycarbonate . Measures .625" deep. Includes .125" thick closed-cell neoprene rubber gasket to seal against moisture and contaminants. Easily attaches with screws or nails.			

ETL-US Listed For Wet Locations.

All polycarbonate components meet Underwriters Laboratories 746C tests for polymeric material and carry a flammability rating of 94-5V.
