Our **Evac+Chair** is simple. It works every time. It is intuitive so anyone can use it, even without training or instruction. There are no complicated add-ons to break. No complicated features to snag or fail. It simply works, effectively, easily, and does what it was designed to do: save lives.

Speed: You can grab the Evac+Chair off the wall and have it unfolded in 10 seconds.

Ease of Use: It simply unsnaps from its included wall mount and unfolds in one easy step. It's ready to go in seconds.

Simplicity: Don't let the simple, plain design fool you: this is still the best evacuation chair in the world. Its plain looks and construction are by design. The fewer the parts, the less there is to go wrong.

Size: Our Evac+Chair is the smallest of any similar products and weighs only 19 pounds. That makes it a lot lighter (which makes it that much easier for anyone to use). It also means that it snaps to the wall very unobtrusively so that it doesn't get in the way.

High Capacity: The Evac+Chair weighs only 19 lbs but has a 400 lb capacity!

Stand Alone: It requires no attachments to stairs or side railing.

Portable: Carry it easily to any place you need.

Includes: Patient restraints, mounting wall bracket, vinyl dust cover, instructional DVD, full color user guide, and a 15 year warranty

The **Evac+Chair Portable Patient Carrier Seat** is a portable device for lifting incapacitated persons from a wheelchair into or out of an EVAC+CHAIR[®], where self-transfer is difficult.

The **ResQmat** is the perfect solution for the swift emergency evacuation of persons who are mobility impaired. **UNFOLD, STRAP, and GO.** The ResQmat is used **ALL** over the world in Hospitals, Nursing Homes, Retirement Homes, Assisted Living, and Ambulance Companies...**ANYWHERE!**

- Quick and Easy to prepare for evacuation allows ONE person to safely transport another in emergencies.
- Easily moves over ANY surface across floors and down stairs ONLY Mat that easily adjusts to the passenger's size. (one size fits ALL)
- Soft-absorbing head pillow reduces head movement going down stairs.
- Long towing straps at the head and feet for easy maneuvering.

The **ResQme** is an evacuation board designed to help evacuate non-ambulant people or people who may not be able to walk down stairs in an emergency. It can be used for children to adults up to 6 foot 6 inches

- If there is a power failure or a fire in any building over two stories high, the electricity is turned off and the lifts or elevators then cannot be used.
- Wheelchair employees, guests, and visitors are then trapped.
- Used when stairs are only method of escaping power failure or fire.
- ResQme is used in offices, theatres, libraries, hospitals, and schools.
- ResQme hangs from a hook or can be stored in a cupboard.
