BUFFERS

FEATURES	ADVANTAGES	BENEFITS
-----------------	-------------------	-----------------

<p>Heavy Duty capacitor motors</p>	<p>Capable of running long duty cycles underload</p>	<p>Improve finishing performance Powerful, quiet & efficient More versatile Fast blending, finishing and polishing</p>
------------------------------------	--	---

<p>Extended wheel to wheel clearance</p>	<p>Allows longer and larger items to be polished easily</p>	<p>Great operator convenience Allows finishing in the fastest possible way Improved productivity Handles a wider range of parts</p>
--	---	---

<p>Dynamically balanced rotors and sealed bearings</p>	<p>Minimizes vibration Keeps compounds out of the bearings</p>	<p>Ensures smooth running Greater finishing performance</p>
--	---	---

<p>Front mounted toggle switch with lockout key</p>	<p>Located for greater operator convenience and ease of operation</p>	<p>Greater operator safety</p>
