

Uni FUSION™

THE SCIENCE OF LAMINATED FLOOR MATTING.

NETRAX®
FLOOR MATTING

Introducing, UniFusion™ from Superior Manufacturing Group

What is UniFusion™?

UniFusion™ is a revolutionary new bonding process that uses heat and pressure to fuse a floor matting top surface to a base material. The resulting finished product is virtually a single piece, eliminating any possibility of de-lamination. In fact, we're so confident in the UniFusion™ bond that we guarantee it...for life! (see warranty for details)

Why UniFusion™?

UniFusion™ allows us to create an unbreakable bond resulting in far superior product quality, and eliminates the possibility of de-lamination, a problem inherent in laminated floor matting.

De-lamination occurs when a mat top surface separates from the base material. This can cause the top to buckle, or the edges to curl, creating a trip hazard. By eliminating de-lamination, the end result is a safer work environment, and reduced costs associated with injury claims.

The Facts:

- 1 out of every 6 worker compensation claims are related to slips, trips, and falls.
- Slips, trips, and falls are the 2nd leading cause of workplace injuries.
- The average cost for a workman's compensation claim due to a slip, trip, and fall accident is \$13,829.00.

Warranty:

We are so confident in the UniFusion™ process, that we offer the following warranty:

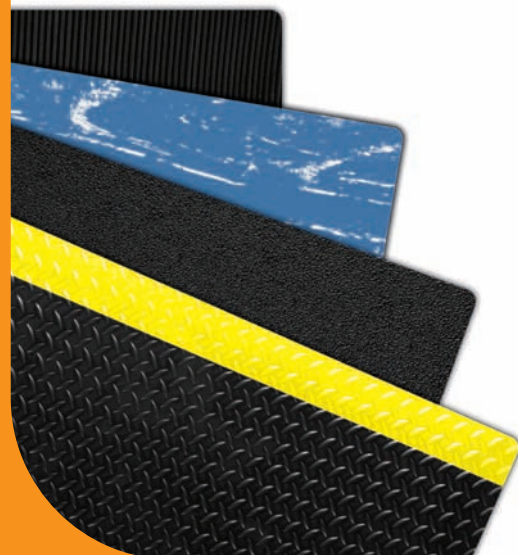

UNIFUSION™ LIFETIME WARRANTY:

Superior Manufacturing Group guarantees the bond on all NoTrax® laminated floor-matting products that incorporate the UniFusion™ lamination process, for the lifetime of the mat. The bond on these products is guaranteed under normal conditions of use in reasonable dry application environments, or a full refund or replacement mat (based on manufacturer's discretion) will be issued. Proof of purchase is required for all refunds or replacements. This lifetime warranty protects against de-lamination or bond failure, and does not cover issues unrelated to the bond such as wear or foam tears. All NoTrax® laminate top products with foam backing are covered by the standard warranty against manufacturer's defects, and are not guaranteed against spike heels or stool legs. Laminated matting products that are non-standard widths, or require blunt cut edges may not use the UniFusion™ process.

Uni FUSION™

EXCLUSIVELY AVAILABLE ON THESE NOTRAX® FAMILY PRODUCTS:

- 479 Cushion Trax®
- 979 Saddle Trax™
- 470 Marble Sof-Tyle™
- 970 Marble Sof-Tyle™ Grande™
- 480 Pebble Trax®
- 980 Pebble Trax® Grande™
- 474 Ergo Mat™
- 974 Ergo Mat™ Grande™
- 826 Diamond Stat™
