# WESTWARD® 8 Way Slide Hammer Puller Set

## Operation

Westward 8 way slide hammer puller sets have several pulling attachments to give the user various methods for pulling, maintenance, and repair application to: the slide hammer exerts force when needed. Recommended configurations for the slide hammer are shown in this parts list.

## Safety Precautions

**CAUTION:** To avoid injury when using this tool,

1. Wear eye protection that meets ANSI Z87.1 and OSHA standards.
2. Cover the work with a protective blanket or canvas to reduce danger from breaking parts.
3. Adjusting strap bolts must be tight on puller jaws.
4. Puller legs and jaws must be in-line and the setup must be rigid.
5. Apply force gradually. If maximum force has been applied and the work piece has not moved, use a puller with a larger capacity. Do NOT hit the part with a hammer in an attempt to jar it loose.

**Important :** When using the jaws in the spread or reversed position as shown, thread the cone as close to the puller head as possible to ensure a firm grip on the part.
