

SLIP Plate[®]

SLIPPERY when DRY![™]

DRY FILM GRAPHITE LUBRICANTS

Creates smooth, slick surface | Reduces mechanical wear

Lubricates
and
Deters
Debris

- Effective lubrication in extreme environments
- Fast drying, durable coating that extends lubrication after the visible coating is gone
- Repels water, rain, sleet, snow and grit
- Reduces buildup of particles and debris
- Increases productivity and prolongs equipment life
- Reduces noise associated with friction
- Environmentally safer alternative to petroleum films and greases

Serving the
Market since
1975

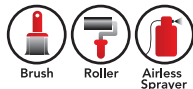

GRAPHITE:
An Environmental
Alternative

SLIP Plate® No. 1: The Original Heavy-Duty dry film graphite based coating with the highest concentration of friction fighting graphite in the market that solves sliding friction problems in equipment.

Recommended Application Method

Available Packaging
4 - 1 Gallon Cans
Product Code
33015OS

Grainger Stock Number
1WVL3

Available Packaging
5 Gallon Pail

Product Code
33008

Grainger Stock Number
1WVL4

SLIP Plate® Original Aerosol: Convenient to use dry film graphite lubricant. Produces a very slick barrier between metal surfaces that reduces sliding friction, build-up and helps to reduce corrosion.

Recommended Application Method

Available Packaging
6 - 12 oz Cans

Product Code
33203G

Grainger Stock Number
1WVK7

SLIP Plate® No. 3: The same unique dry-film technology as SLIP Plate No. 1, but manufactured with finer graphite in a quick dry formula for easier application with conventional spray guns.

Recommended Application Method

Available Packaging
4 - 1 Gallon Cans

Product Code
33215

Grainger Stock Number
1WVL5

SLIP Plate® Chain & Cable: This is combination of graphite and wet lubricant to penetrate deep within the chain linkages and pins and deposit longer lasting graphite particles to save money on maintenance costs.

Recommended Application Method

Available Packaging
6 - 12 oz Cans

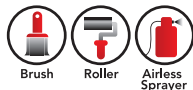

Product Code
35201G

Grainger Stock Number
1WVL1

SLIP Plate® No.4: An environmentally friendly, water-based product that uses proprietary binders and particle suspension system to provide the same quality as our SLIP Plate No. 1 product. A great alternative to petroleum based products.

Recommended Application Method

Available Packaging
4 - 1 Gallon Cans

Product Code
33615OS

Grainger Stock Number
6KYD7

SLIP Plate® Penetrant Plus: A traditional premium penetrating oil with the addition of fine graphite particles to loosen and lubricate the toughest situations.

Recommended Application Method

Available Packaging
6 - 12 oz Cans

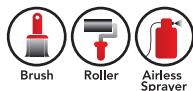

Product Code
35001G

Grainger Stock Number
1WVL2

SLIP Plate® Hot Oven Chain Lubricant: A smokeless Hot Oven Chain (HOC) Lubricant that offers superior lubricity under extreme conditions including temperature. Registered with NSF under H2 category acceptable for non-food contact.

Recommended Application Method

Available Packaging
4 - 1 Gallon Cans

Product Code
37115G

Grainger Stock Number
1WVK8

SLIP Plate® Black ICE™: A unique formulation of solvent cleaner and lubricious graphite to clean metal surfaces and deposits friction reducing mineral. Great for firearm maintenance and quick removing threads.

Recommended Application Method

Available Packaging
12 - 6 oz Cans

Product Code
36002

Grainger Stock Number
6KYD6

Tube-O-Lube® Graphite Powder: A very fine natural, crystalline graphite powder designed to allow for proper lubrication in areas where friction and wear is an issue.

Recommended Application Method

Gently puff on desired surface.

Available Packaging
288 Piece Master Case

Product Code
31644G

Grainger Stock Number
1WVK9

SLIP Plate® MowerGUARD™: Using the SLIP Plate® dry-film technology, this product designed specifically for lawn maintenance equipment to provide a barrier to reduce grass clipping and debris build-up.

Recommended Application Method

Available Packaging
6 - 12 oz Cans

Product Code
34003G

Grainger Stock Number
6KYD5
