

# METAL RESCUE™

CORROSION  
PREVENTION  
TECHNOLOGY

CLEAN.  
SAFE.  
EASY.

## SAFE ON EVERYTHING EXCEPT RUST

Metal Rescue™ is a clean, safe and easy solution for removing rust onsite. Whether you manufacture metal parts or receive them from a supplier, with Metal Rescue you can eliminate outsourcing of rust removal or the need to discard corroded metal entirely. Metal Rescue is water-based and removes iron oxide from ferrous metals. It contains no acids, is non-toxic, non-flammable, biodegradable, fume free and is safe on other materials including rubber, elastomers, plastic, clothing and skin. Metal Rescue is available in sizes that range from one gallon bottles, five gallon pails, 55 gallon drums and 330 gallon totes. Reduce labor, eliminate dangerous chemicals and increase safety while effectively removing rust.

## METAL RESCUE™ BENEFITS

### SAFE ON YOU

*non-toxic, no acids, fume free*

### SAFE ON METAL

*safe on most etched, embossed, painted or machined metal surfaces*

### CLEAN

*water-based, environmentally-friendly, biodegradable*

### EASY-TO-USE

*soak part, check and remove/rinse*

### ECONOMICAL

*eliminates outside rust removal services and costs*

### UNCOMPLICATED DISPOSAL

*Metal Rescue is typically sewerable if only iron oxide is introduced. It is recommended to check local/federal disposal requirements.*

### REUSABLE

*one gallon will remove a half-pound of dry rust- can be reused until performance drops off*

TAKING THE WORK OUT OF YOUR WORKDAY

# RUST REMOVAL

CLEAN.  
SAFE.  
EASY.

## CORROSION MANAGEMENT SOLUTIONS

### ARMOR METAL RESCUE™ APPLICATIONS

Ideal for large or small projects, Metal Rescue™ Rust Remover Bath works in three steps. 1. simply remove dirt/oil/contaminants and soak part, 2. check part (removal time is dependent on severity of rust and temperature of solution), and 3. once desired results are achieved rinse part and/or dry thoroughly. Metal Rescue reduces loss of material costs, equipment expense, labor expenditure and simplifies the rust removal process.

### ARMOR EXPERTISE

With more than 35 years in the business, Armor Protective Packaging® offers a full line of corrosion inhibiting VCI products that are clean, safe, easy to use and extremely effective.

ARMOR people and VCI solutions protect products and brands.
