

Valor™ 7000

Compact Bench Scales

The Best Compact Food Scale in its Class!

The OHAUS Valor 7000 compact food scale is the newest scale in OHAUS's line of reliable and durable products that will increase your food weighing and proportioning productivity. Dual displays and touchless sensors, user-friendly menu and setup, along with the speed and accuracy of the results provide for a seamless and hassle-free user experience that is second to none.

Standard Features Include:

- **Front and Rear Touchless Sensors Minimize Scale Contamination**—Touchless sensors allow Valor 7000 to operate certain functions without the touch of one button, reducing scale contamination and extending the life of the scale!
- **Dual Backlit Displays Allow For Quick and Easy Weighing by Two Operators**—Large front and rear displays with brilliant backlights and checkweighing LED's are among Valor 7000's user-friendly features that enhance the user experience and allow two operators to work on one scale at the same time.
- **Rapid Stabilization Provides Unmatched Throughput**—Reap the benefits of a one second stabilization time and accurate results, which will ensure your job gets done right and on time and your overall throughput is greatly increased!

Valor™ 7000 Compact Bench Scale

Front and Rear Touchless Sensors Minimize Scale Contamination

Touchless sensors located in the front and rear allow you to do all of your weighing without ever touching the scale! Determine weight and perform zero, tare, print and function operations with one swift hand motion. This will help keep your work environment clean, reduce the chances of cross-contamination and ultimately provide years of reliable service.

Dual Backlit Displays Allow for Quick and Easy Weighing by Two Operators

Valor 7000's many functional features make it one of the most user-friendly products on the market. Two large displays allow two operators to share one scale and are easy to read even from a distance. The 1.5" front display and 1" rear display are both equipped with an LCD backlight for added clarity. Use the checklights for another level of clarification and confirmation of results.

Rapid Stabilization Provides Unmatched Throughput

See your results in a blink of an eye! Valor 7000 produces precise results in just one second. Maximize your time and increase your throughput by quickly and accurately producing results. Eliminate diminished productivity and the concern of unstable results with Valor 7000.

Standard Connectivity with Flexible Options

Standard RS232 with optional Ethernet, second RS232 and USB offers additional data transfer capabilities and allows connection to multiple peripherals.

Approvals

The Valor 7000 has exceeded the standards set forth by multiple metrological and food safety regulatory bodies. NTEP, CWM, OIML, NSF and USDA approved, Valor7000 helps ensure compliance, safety, and quality, and is ready for stringent Legal for Trade applications.

Portability and Versatile Power Options

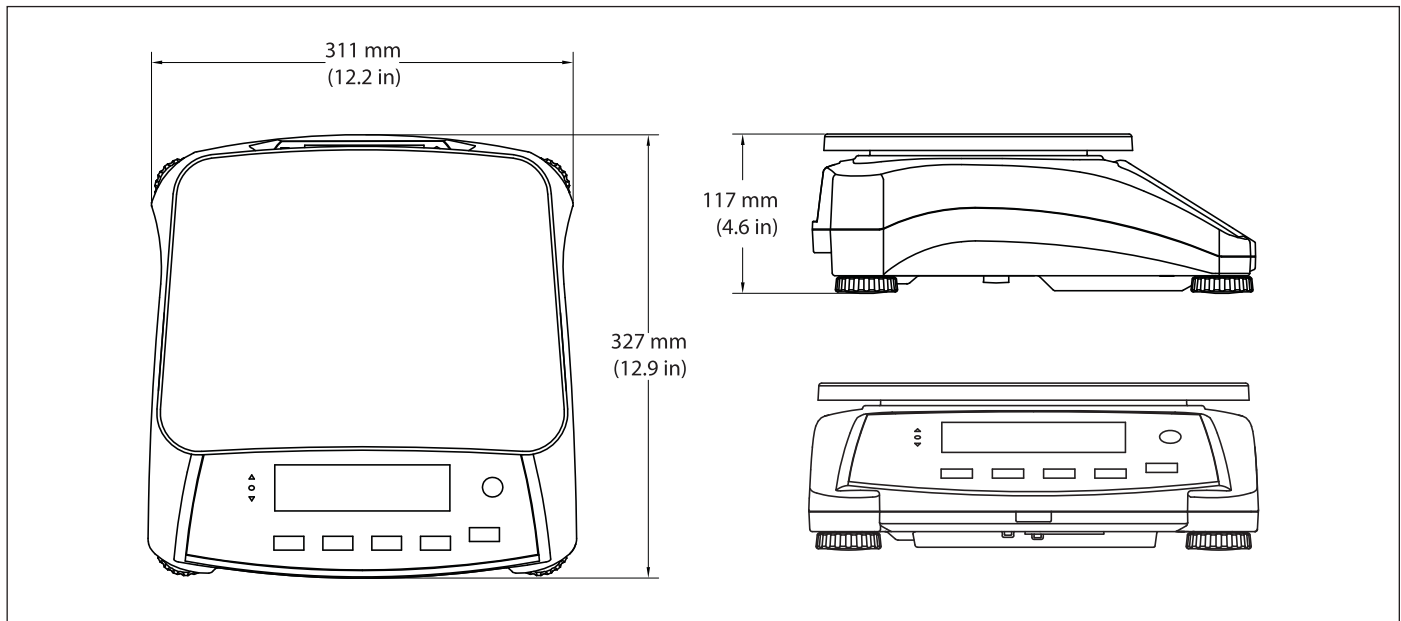

Say goodbye to being restricted to working only near power outlets! With its convenient carrying handle and rechargeable lead acid battery that can provide power for more than 210 hours, Valor 7000 can provide many hours of uninterrupted operation in the area of your workspace that most conveniently fits your needs. It can also be powered through the easy connect power cord that takes up minimal space and automatically adapts to different power line voltages and frequencies, eliminating disruptions in workflow due to power outages and shortages.

Application Modes

- **Weighing**—Determine the weight of items in the selected unit of measure.
- **Percent Weighing**—Measure the weight of a sample displayed as a percentage of a pre-established Reference Weight.
- **Check Weighing/Percent**—Compare the weight/percent of a sample against target limits. Choose from Checkweigh or Checkpercent.
- **Accumulation**—Totalization of weight or percent. Calculates total accumulated weight or percent of separate items.
