**TECHNICAL SPECIFICATION**

**CLOSET FLANGE SPACERS**

**TECHNICAL SPECIFICATION:** Oatey Closet Flange Spacers are designed to build up an existing closet flange when new flooring is installed and renders finished floor height below grade. Available in thickness of 1/4" or 1/2".

**PHYSICAL/CHEMICAL PROPERTIES**

Material/Color                      PVC Plastic/White

**DIRECTIONS FOR USE**

Stack rings (maximum of 3) onto existing closet flange ring to accommodate desired height. Rings can be solvent welded together on the horizontal surface using PVC solvent cement or can be secured using mechanical means.

**COMMON APPLICATIONS**

Build up existing closet flange when new or replacement flooring leaves flooring below grade.

Consult Oatey Technical Department for applications not specifically referenced above.
