

TAD Centerpull Towels

Through Air-Dried (TAD) technology is a process through which the sheet is dried by passing air through the sheet as compared to the conventional dry or wet crepe paper machine process which uses heated dryer rolls. This TAD process results in a softer, stronger, and more absorbent sheet - which equates to more hand-dries per case.

Premium Quality • Strong • Absorbent

These Premium TAD Tough Guy® Centerpull Towels provide a softer, stronger, and more absorbent hands-free solution.

Grainger Item #: 22UY42

Plies: 1

Basis Weight Target: 18

Roll Width: 7.8 inches

Roll Diameter: 7.8 inches

Core Size: 2.4 inches

Feet per Roll: 700

Rolls per Case: 4

Feet per Case: 2,800

Cases per Pallet: 75

Case Cube: 1.14 cubic feet

Shipping Weight: 12 lbs.
