

CELEBRATE WITH US!

This marks the 25th Anniversary of the very first diamond-plate anti-fatigue mat!

WEARWELL led the charge 25 years ago and continues to offer more choices with greater customization and for a wider range of applications than anyone else. Better still, we manufacture all of them with pride, right here in the good ol' USA!

THE ORIGINAL CHOICE IN DIAMOND-PLATE MATTING!

SMART®
No. 497

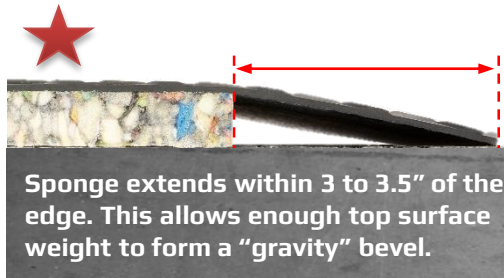

Select®
No. 495

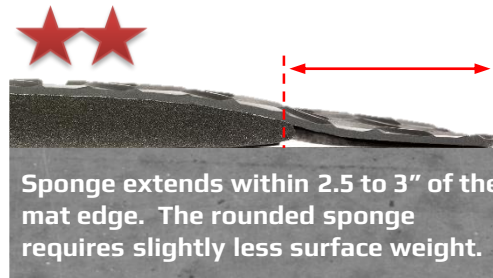

SpongeCote®
No. 414, 415, 416

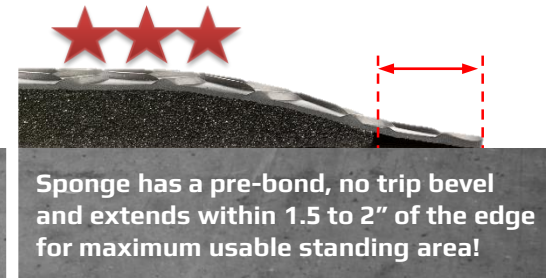

Standing Area and Trip Prevention

Sponge extends within 3 to 3.5" of the edge. This allows enough top surface weight to form a "gravity" bevel.

Sponge extends within 2.5 to 3" of the mat edge. The rounded sponge requires slightly less surface weight.

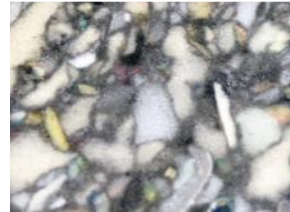

Sponge has a pre-bond, no trip bevel and extends within 1.5 to 2" of the edge for maximum usable standing area!

Rebound

Results after
5 second
compression

★★
Fast rebound.
Tried and true in
home and
commercial use.

★
Slow rebound
