

4-Foot Rail

Model No. 30-148

The 30-148 (4-ft rail) will accommodate the following number of each bin size:

<u>AkroBin</u>	<u>Accommodates</u>	<u>Unused Space</u>	<u>Bin Load Capacity</u>
30-210	11 each	2"	10 lbs.
30-220	11 each	2"	10 lbs.
30-230	8 each	4"	30 lbs.
30-235	4 each	4"	50 lbs.
30-239	5 each	6.75"	50 lbs.
30-240	5 each	6.75"	50 lbs.
30-250	2 each	15"	75 lbs.

NOTE: The maximum load capacity for the 30-148 is 250 lbs.

Akro-Mils does not recommend the 30-239, 30-240 and 30-250 AkroBins to hang on the rail for the following reasons:

1. Due to the bin height, there is no support and the bin sags downward.
2. The amount of unused space is impractical for the customer.

We recommend using the 30-210, 30-220, 30-230, and 30-235 in the quantities listed above.

Bench Rack

Model No. 98-600

The side panels may be purchased separately. The part number is 98-625 and they are sold in pairs.
