

# Master Stop™ Extreme Tape Treads

MASTER STOP™ EXTREME tape treads are Sure-Foot's strongest peel and stick products. From offshore marine applications to the transportation industry, this specially designed pressure sensitive adhesive material is capable of preventing slips, trips, and falls in the harshest environments.

Made with a proprietary formula, Master Stop™ Extreme tape treads are specifically designed to out-perform standard anti-slip tapes. Master Stop™ Extreme's multi-climate durable design is ideal for demanding applications where safety is a must.

Master Stop™ Extreme tape treads feature several exceptional qualities that make these products the best choice for added safety and longevity:

- 50% stronger adhesive with superior bonding properties
- Multi-layer grit embedding process lengthens product life
- Simple peel and stick installation: simply peel and stick to any clean dry surface
- Easy to cut and trim
- Useful temperature range of -40°F to +220°F (when applied properly per installation instructions)
- Tolerates steam cleaning, detergent cleaning, and low PSI pressure washing
- Essentially unaffected by oil, grease, saltwater, mild acid, or alkali exposure under normal conditions
- Minimum self life of two years
- Exceeds OSHA and ADA recommendations for Coefficient of Friction

Master Stop™ Extreme tape treads are recommended for use in offshore marine applications, oil and gas rigs, heavy traffic areas, work areas, loading docks, stairways, ramps, walkways, bleachers, and heavy equipment.
