

# 67" Ultra Hygiene Handle

Series 2964

## Easy Hanging Hole

Teardrop-shaped hole is contoured to allow moisture to quickly drain

## Extra-Long Handle

Made completely of durable and food-safe polypropylene so it doesn't bow when in use

## Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

The handle's grip has been optimized for comfort during use. Made from food-grade, chemically resistant polypropylene, the material ensures that it can be safely used in a variety of environments. The hygienic design minimizes the risk of cross-contamination and makes it easy to clean and maintain. The extra length makes this more comfortable to use for taller workers and makes it an ideal choice for cleaning tanks or hard-to-reach spaces between machinery.

## 67" Ultra Hygiene Handle

2964

Designed for ease-of-use just as much as it was for cleanability, the Ultra Hygiene Handle is the pinnacle of handle design. Its strong material is molded into a wider grip for comfort, and every feature contributes to the handle's cleanability.

### Specifications:

Length: 66.75"  
 Width: 1.25"  
 Height: 1.25"  
 FDA-Compliant Raw Material: Yes  
 Material: Polypropylene  
 Unit Weight: 1.19 lbs.

### Colors

When ordering, add the color digit to the base part number to denote color.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
