

# WORKER EMERGENCY IDENTIFICATION

Working for your safety!

WSID-02

Do you know....

...Mark's first emergency contact information?

**Worker Emergency ID knows!**

## WORKER EMERGENCY ID - VITAL INFORMATION WHEN YOU NEED IT!

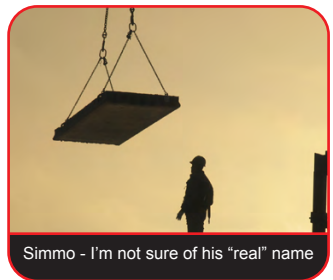

Bob goes to work sites where no one really knows anything about him

Mike wants his wife & ex-wife told if he is injured, so his ex-wife can tell his kids

Paul is on medication for depression but hasn't told anyone

Simmo - I'm not sure of his "real" name

Knowing small amounts of relevant information about a worker at an incident can save lives, for example:

- Who is he/she?
- How do we contact his/her boss or supervisor?
- How do we contact his/her family?
- Does he/she have any significant underlying medical conditions that could help paramedics?
- Is he/she taking any medication?

**Worker Emergency ID is a proven low cost solution to support the risk management of your people and your organization's reputation - it saves lives.**

## Which Solution is Right For My Organisation?

### Top Seller in the USA **WSID-02** ([Grainger Mat. Code 45PC77](#))

The all purpose WSID-02 has a proven track record worldwide, providing outstanding reliability and performance in the most demanding work environments.

Adhering to the hard hat or high-viz jacket the WSID-02 (3.25 x 0.75 inch) is made of high specification 3M reflective material to be conspicuous in low light conditions. The outer window allows site supervisors to identify a worker at all times and facilitates quick identification of a worker in the event of an accident or medical incident

### **WSID-01** ([Grainger Mat. Code 45PC76](#))

This is the original product in the Worker Safety ID product range, with the same high quality components as the WSID-02. Also ideal for adhering to hard hats and high-viz jackets.

The WSID-01 is smaller in size (2.75 x 0.5 inch) and does not have a name window to display the workers' name unlike the WSID-02.

### **WSID-05** ([Grainger Mat. Code 48TD33](#))

This product is used principally by organizations where the work force does not wear routinely a hard hat. The Emergency ID card is contained in a tough & durable polycarbonate case accessible by first-responders / medics.

The Universal ID features a unique "stretch-ring" fitting system. Fits to lanyards, key-rings, belts, fall-restraints, backpacks, boots etc.

### **WSID-04** ([Grainger Mat. Code 35YY93](#))

A durable plastic wallet card that is designed to supplement / back up the other products in our Worker Emergency ID range. Ideal for remote workers or those who work away from home for extended periods.

## TECHNICAL STATEMENT

Worker Emergency ID's (sku's WSID-01, 02 & 02G) have been in continual use on hard hats in the field, in a broad range of challenging climates and demanding industries worldwide for over 6 years.

**WATER RESISTANCE** - The outer sleeve is designed to be resistant to the ingress of water and the synthetic paper ID tag inside is 100% waterproof and fully retains all information.

**HELMET SAFE ADHESIVES** - The 3M adhesives we use will not in any way degrade the protective performance of safety helmets.

**ELECTRICAL CONDUCTIVITY** - The 3M reflective Scotchlite material and 3M adhesives we use in our products are non-conductive.
