STRENGTH AND PROTECTION

ARMOR SHIELD® Stretch Film is an innovative corrosion-inhibiting film that is ideal for use in banding and wrapping or any application to secure a metal shipment or load. This polyethylene stretch film contains ARMOR's vapor corrosion inhibitors (VCI) Nanotechnology® and emits VCI to protect ferrous and non-ferrous metals from corrosion. ARMOR's VCI stretch film saves time and money while keeping metal clean, safe and free from rust in shipment. Available in a variety of sizes and thickness, ARMOR stretch film is environmentally friendly and recyclable.

ARMOR SHIELD® STRETCH FILM BENEFITS

CUSTOM ORDERS AVAILABLE

various sizes, thickness and customization options available

SAFE

non-toxic, no preparation needed

CLEAN

environmentally-friendly, recyclable

EASY-TO-USE

just apply like standard stretch film around parts (note: metal must be contained to work)

TWO-WAY PROTECTION

multi-metal formulation protects metal from corrosion; strength of film secures metals in shipment

COMPLEMENTS

pair with other ARMOR VCI products for extended protection

IN STOCK

multiple stretch films in stock and ready for shipment

TAKING THE WORK OUT OF YOUR WORKDAY

CORROSION MANAGEMENT SOLUTIONS

ARMOR SHIELD® STRETCH FILM APPLICATIONS

ARMOR SHIELD® Stretch Film is the “strong” choice for use in bulk loads of metal and metal parts. Strong in its ability to provide protection from corrosion and strong in its ability to wrap, band or unitize large shipments. Look to stretch film to keep metals clean and rust free while in storage or shipment, to serve as a barrier for metal cages and steel coils; to secure large shipments and to assist in various pallet configurations.

ARMOR SHIELD® Stretch Film does double duty – it secures this heavily-weighted load for shipment and provides VCI corrosion protection during shipping/storage.

NOT INTENDED FOR OUTDOOR STORAGE

ARMOR EXPERTISE

With more than 35 years in the business, Armor Protective Packaging® offers a full line of corrosion inhibiting VCI products that are clean, safe, easy to use and extremely effective.

ARMOR people and VCI solutions protect products and brands.
