Blankets

R&R Textile's thermal blankets provide natural warmth and softness. These breathable blankets weigh 2.5lbs and are 100% cotton with a firm, long-lasting leno weave. Blankets are preshrunk and have colorfast dye. These are available in white, beige, or blue colors.

Our fleece blankets are available in twin, full, queen, or king sizes. These soft 9 ounce fleece blankets are 100% polyester with an antipill finish, perfect for long-term use. Fleece blankets are lightweight yet provide warmth, comfort and value.

Our thermal bedspread is a breathable woven block cotton for warmth and durability. This bedspread is effective in retaining body heat and providing the required warmth while the open cell weaves of the blanket ensure proper air circulation to keep your patients comfortable all day and night.

The snag free thermal blanket has the perfect strength and durability to wear and tear. This blanket is 100% cotton closed weave to ensure the desired warmth and stability.
