

Ideal for the FSI® Pneumatic Surge Capacity/Mobile Field Hospital Shelter System

FEATURES AND BENEFITS:

Meets and exceeds known FEMA guidelines and ADA compliance standards

Flame Resistant Mattress Pad: Even though portable field cots have been designated as exempt from the new **CPSC 16 CFR Part 1633 Flame Resistance FR requirements, FSI has elected to supply FR fabric for maximum patient protection.

Thicker, Denser Mattress Pad: Added patient comfort for extended care.

Fluid Resistant Mattress Pad: Antimicrobial and moisture/fluid resistant - ideal for ease of cleaning and re-use

Longer/Wider/Higher: With approx. dimensions of 15" /38 cm H X 28" /70 cm W X 81" /205 cm L this is truly a cot/bed designed to fit full sized patients with maximum comfort for extended stays.

Fine Mesh Cot Mat: Moisture resistant fabric allows water through the mat - ideal for patient bathing/cleaning.

Stronger Thicker Grommets: Better 'seating' in the cloth mat fabric offers longer life expectancy with constant re-use.

Springs attached to frame with Circle Rings: Added strength and comfort to patient - and no holes in frame allows for easier decon of cot.

Grooves to hold head rest in down position: Multiple position cot allows for added patient comfort and surety of rest in a fully reclined position

Painted Steel Frame: Easier cleaning/decon after use. 1000 use tested.
