

The Moisture Meter Reinvented

with
IGM™
Technology

NEW!

FLIR MR160

Imaging Moisture Meter

The FLIR MR160 is the only moisture meter with the power to show you exactly where to measure. Featuring **Infrared Guided Measurement (IGM) technology**, MR160 helps you quickly see temperature patterns that point to potential hidden moisture so you know right where to place the meter probe to capture accurate readings.

Visually identify hidden moisture

FLIR MR160 Imaging Moisture Meter

MR160's powerful, built-in IGM thermal imaging technology lets you see hidden cold spots associated with moisture evaporation. With IGM, an onboard laser pointer, plus easy-to-see display crosshairs, the MR160 makes it effortless to home in on trouble. An integrated pinless sensor and included external pin probe provide the flexibility you need to measure and confirm that the cold spot is truly moisture.

Features

- 80 x 60 Lepton thermal imager powers IGM technology
- Document thermal images and moisture readings on one screen
- Review images and generate reports with free FLIRTools Software
- Pinless technology for fast non-intrusive measurements
- External pin probe included for contact moisture measurements
- Easy targeting with laser pointer and display cross-hairs
- Small form factor to conveniently carry with you
- Internal rechargeable battery with USB

MR02 Pin Probe included
