A decorative graphic consisting of a grid of green squares. The top row is a solid dark green. The second row has a lighter green square on the left, followed by a dark green square, and then a dark green square on the right. The third row has a dark green square on the left, followed by a dark green square, and then a dark green square on the right. The word "Abrasives" is written in white, bold, sans-serif font across the middle of the grid.

### Surface Conditioning Disc Pads

	07492	07493	07494	07910
Description	 Use with 4 inch diameter hook and loop discs. Has 1/16 inch thick foam and 3M™ Dual Lock™ Hooks. 1/4 inch shank.	 Disc pad connects quickly and easily to any power tool for 3 in discs while holding Scotch-Brite™ surface conditioning discs securely and safely through the use of 3M™ Dual Lock hooks. Has 1/4 inch shank.	 Use with 2 inch diameter hook and loop discs. Has 1/16 inch thick foam and 3M™ Dual-Lok™ Hooks. 1/4 inch shaft.	 Surface preparation for spraying primers, base coat or clear coat paints is a smooth transition as dust is drawn into the tack pad leaving a drag-free surface. Hands are less sticky due to the reduction of adhesive transfer.

## General/Miscellaneous Bonding Products

### General Bonding Products

	04240	04247	04747	08101
Description				
	Urethane plastic repair material for repairing damaged bumpers and re-building tabs. Can also be used to bond many dissimilar materials such as plastic, fiberglass and metal.	20-second set urethane adhesive that replaces cyanoacrylates. Will not crack or become brittle like cyanoacrylates. Bonds to virtually any substrate and has excellent gap-filling capabilities for bonding small parts. Excellent for rebuilding cracked eyelets and broken tabs.	4747 is a two-component adhesive that has a very fast gel and cure time. The two parts consist of a base side and an accelerator side. The two parts are always mixed together.	Two part general purpose gray structural adhesive that may be used for bonding metal, glass and plastic. This product can be used for trim, fiberglass, and flexible body parts repair.

Description				
	Two-part, clear epoxy that delivers strong, durable bonds within minutes after application. Makes difficult repair jobs easy when used to join parts made of plastic, metal, glass, fiberglass, wood, etc.	Two-part, clear epoxy that delivers strong, durable bonds within minutes after application. Makes difficult repair jobs easy when used to join parts made of plastic, metal, glass, fiberglass, wood, etc. There is a 3 to 5 minute work life. Handling strength is reached in about 5 minutes, with full cure in one hour.	Flexible urethane for bonding plastic add-on parts such as spoilers, flares, air dams, impact strips, emblems and various other ground effects parts. Tough, flexible bond prevents cracking. Allows repositioning of impact strips during application.	Two-part epoxy used as a general purpose adhesive for metal, glass and plastic. This clear, non-yellowing adhesive has a 3 minute work time, 25 minute handling time, and 60 minute cure time.

	08115	08116	08219	08272
Description	 Two-part epoxy used to bond steel, aluminum, SMC, and FRP (traditional fiberglass). The primary use is to replace quarter panels, roofs, box sides, van sides, utility vehicle sides and door skins.	 Two-part epoxy used to bond steel, aluminum, SMC, and FRP (traditional fiberglass). The primary use is to replace quarter panels, roofs, box sides, van sides, utility vehicle sides and door skins. Meets GM 6449G & Chrysler MS-CD 507.	 Two-part urethane adhesive that is used to bond SMC and FRP ( traditional fiberglass) body panels to each other and to metal frames.	 Two-part urethane. Adhere SMC and FRP (traditional fiberglass) body panels to each other and to metal frames (metal must be primed with two part primer, 08278). Automatic mixing with excellent sag resistance.

### Back Side/Structure Adhesives

	04240	04247	04747	08235
Description	 <p>Urethane plastic repair material for repairing damaged bumpers and re-building tabs. Can also be used to bond many dissimilar materials such as plastic, fiberglass and metal.</p>	 <p>20-second set urethane adhesive that replaces cyanoacrylates. Will not crack or become brittle like cyanoacrylates. Bonds to virtually any substrate and has excellent gap-filling capabilities for bonding small parts. Excellent for rebuilding cracked eyelets and broken tabs.</p>	 <p>4747 is a two-component adhesive that has a very fast gel and cure time. The two parts consist of a base side and an accelerator side. The two parts are always mixed together.</p>	 <p>Excellent choice for quick repair of nicks, gouges, or small defects on mentioned plastics due to extremely fast work time. Excellent adhesion over a wide range of temperatures.</p>

Description				
	Dynatron™ Ultimate-Cote® is a stain-free, tack-free premium polyester glazing and finishing putty that offers the industry's best adhesion to steel, galvanized steel, aluminum, E-Coat and SMC.	Dynatron™ Ultimate-Cote® is a stain-free, tack-free premium polyester glazing and finishing putty that offers the industry's best adhesion to steel, galvanized steel, aluminum, E-Coat and SMC.	Recommended for filling pinholes, scratches and other surface defects on a variety of automotive and marine surfaces. Its white color minimizes the possibility of color showing through the final coat as can happen when using colored putties beneath white paint. Other advantages include easy sanding, slow drying, spreads easily, and has low shrinkage.	Fast drying, easy sanding putty designed for spotty repairs. Spreads very easily. Loads paper less and can be sanded in 10 to 15 minutes.

## Aerosols

## Aerosols (continued)

	5611	05910	05911	05917
Description	 Mar-Hyde® Tal-Strip® IV Urethane Parts Paint Remover specifically designed to strip paints and coatings from urethane automotive parts without attacking and damaging the urethane substrate. Only available as an aerosol.	 Paintable coating in aerosol can specially formulated to match the medium to coarse texture of factory-applied textured coating on the stone-throw areas of automobiles. VOC compliant in all 50 states.	 For aerosol application over acrylic lacquer top-coats or under acrylic lacquer or enamel color coats. Not to be applied over OEM finishes. Designed to match fine to medium textures on stone throw areas of automobiles.	 Aerosol coating designed to be applied to metal surfaces prior to welding to provide corrosion protection after welding. Dries fast with minimum spatter. Meets MIR requirements.

Description	 Black, multi-purpose, low cost, aerosol undercoating. Specifically used for undercarriages, wheel wells, frame rails, and fenders. Designed to protect metal from corrosion and abrasion. Can also be used as a sound dampening coating.	 Paintable aerosol undercoating designed to protect surfaces from corrosion and provide sound deadening. Can be applied to bare or primed metal. For painting, let dry for 30 minutes at room temperature or greater than 60 degrees.	 A tough, high-performance rubberized aerosol undercoating. Provides rust-proofing and sound deadening for a variety of applications, including fenders, quarter panels, door panels, repaired sections, welded joints, hoods, and decklids.	 A resilient under-the-paint protective coating formulated to match the medium to coarse texture of factory-applied coatings on the Rocker Panel and stone-throw areas of automobiles. VOC compliant in all 50 states.

## 3M™ Environmental Safety

### 3M™ Automotive Environmental Safety Products (continued)

	16054	17596	28990	28991
Description	 This boom is a 8 inches by 10 feet scrim encased tube of particulate sorbent material secured by a UV resistant netting. Built-in attachment clips are provided at each end of the boom allowing the booms to be linked together, overlapping and preventing seepage between segments.	 Mini-booms are typically used to encircle spills and to contain leaks. A 3 inch diameter scrim on the outside of the boom identifies the application. This boom is 4 feet in length.	 Designed to cover large surfaces, can be easily placed in tight areas. Ideal for cleaning-up small spills and wiping down contaminated areas. The HP-100 roll sorbs 73 gallons per roll and is 38 inches by 144 feet long.	 This high capacity, low profile Sorbent pad, picks up petroleum based fluids, will not absorb water. For routine use, cleaning up small spills and wiping contaminated areas. 100 pads (19 inch X 17 inch) per bale, (37.5 gallons/bale).

Description	 Used in areas where foot and vehicle traffic is a concern. Designed to sorb liquids while enduring the punishment of being tread upon, sorbent rugs are both durable and versatile. Each rug comes in a roll 36 inches by 300 feet and sorbs 32 gallons per roll.	 This rug is designed for use in industrial maintenance applications where foot and vehicle traffic is a concern, and will sorb most non-aggressive liquids. Each rug comes in a roll 36 inches by 100 feet and sorbs 10.5 gallons per roll.	 Can be easily cut to cover small areas or fit tight corners. May be used to cover bench tops in anticipation of a spill while also acting as a work surface. Able to sorb 31 Gallons/roll. Each roll is 15.25 inches by 150 feet.	 Can be stored indoors or outdoors. Easily identified by its bright white color. Packed in an element resistant 20-gallon drum. Combines both folded sorbent materials and high capacity pads which allow for selection of product for each response situation.

## 3M™ Automotive Respirators

### 3M™ Automotive Buffing, Grinding and Sanding Respirators (continued)

	37022	52750	54143	54285
Description	 This disposable N95 particulate flatfold respirator features soft inner material and 3M™ Cool Flow™ Valve to help provide comfortable, reliable worker respiratory protection. Ideally suited for hot/dusty work settings that require long periods of wear.	 This respirator offers all the great features of the 3M™ Particulate Respirator 8511, plus a comfortable foam face seal. Is uniquely designed to help provide protection against certain non-oil based particles. It is ideally suited for work settings that involve heat, humidity, or long periods of wear.	 Is well suited for those who want NIOSHs highest rated filtration efficiency in a maintenance free respirator. It provides a minimum filter efficiency of 99.97% against non-oil based particles.	 This disposable P95 particulate respirator features 3M proprietary advanced electret filter media, foam face seal and 3M™ Cool Flow™ Valve to help provide comfortable worker respiratory protection against certain oil and non-oil based particles.

Description	 This disposable P95 particulate respirator helps provide respiratory protection against certain oil and non-oil based particles. The respirator features a carbon layer to remove nuisance levels of organic vapors. See product warning for use details.*	 Is designed to help provide protection against certain oil and non-oil based particles. It features a collapse resistant shell for increased durability in most hot, humid conditions.	 3M™ Particulate Respirator 8511 is 3M recommended for sanding and working with fiberglass insulation and drywall sanding. Cool flow™ exhalation valve allows easy exhalation and heat reduction, which provides cool, dry comfort. NIOSH approval: N95.

Description	 Includes the 3M™ Air Regulator SA-1009 and Waist Belt GVP-127. Used with breathing tube, facepiece, filters/cartridges and air supply hose, it makes a complete 3M™ Dual Airline Supplied Air Respirator.	 Includes the 3M™ Dual Airline Connector SA-1029 and the Waist Belt GVP-127. This assembly can be used with any 3M™ Low Pressure Dual Airline Supplied Air Respirator.	 This NIOSH-approved organic vapor/high efficiency cartridge helps provide respiratory protection in environments containing certain organic vapors and particulates. Used with 3M™ GVP Belt-Mounted Powered Air Purifying Respirator Systems.	 This battery pack supplies the power to operate the motor blower. The nickel cadmium battery has over-charge protection and provides eight hours of use per charge. It has a life of approximately 1000 charge/discharge cycles.

	L-149-10	L-150	L-152-5	L-153
Description				
	This gasket, 4 1/2 inches x 5 1/4 inches is part of the welding lens stack. It is placed between the cover plate and the glass shade lens to prevent glass breakage due to heat buildup. The gasket is not used with the electronic lens.	This shield, 4-1/2 inches x 5-1/4 inches, is designed for use with the 3M™ Bumpcap L-503 and Hardhat L-703. It attaches to the headgear with a positioning cam that is secured by a spring-loaded knob on each side of the headgear.	This cover plate, 4-1/2 inches x 5-1/4 inches, is part of the lens stack. It is placed between the lens gasket and the film gasket on the welding lens stack. On the electronic lens stack, it is placed between the lens gasket and the lens.	This welding shield, 4 1/2 inches x 5 1/4 inches, is designed for use with the 3M™ Bumpcap L-505, Hardhat L-705 and Helmet L-905. It attaches to the headgear with a positioning cam that is secured by a spring-loaded knob on each side of the headgear.

Description				
	This safety plate, 4-1/2 inches x 5-1/4 inches, is used in the welding lens stacks that use shade glass. It is placed on the outside nearest the wire clip that securely holds all parts of the stack in place. The plate is ANSI approved.	Used on the 3M™ L-Series Headgear L-700 and L-900. It is installed into the headgear shell before the head suspension is installed. With this foam liner, the headgear is ANSI Class I, II approved for top and side impact.	Used on the 3M™ L-Series Bumpcap L-500. It is used to help prevent leaks around the headgear. The seals are installed into the bottom edge of the headgear and should not be removed unless they need to be replaced.	This air deflector is an option for use on any 3M™ Headgear L-Series. In the standard configuration, the airflow is toward the inside of the faceshield lens. With the air deflector, the airflow is redirected towards the face of the user.

Description				
	This helmet latch is an accessory to the 3M™ Helmet L-901 and L-905. It is used to latch the wide view lens down to the helmet to prevent lifting.	Replacement part for the 3M™ Bumpcap L-500 Series. This shell is designed to be lightweight and offers no head protection against falling or moving objects.	Replacement part for the 3M™ Hardhat L-700 Series. The shell meets ANSI requirements for industrial protective headgear. The shell is intended to be used in applications in which some head protection is required.

## Two-Component Reactive Seam Sealers

### Two-Component Reactive

Container Volume 200 Millilitre

Packaging 6 per case

	08307	08308	08310	08323
Description				
	Two-part epoxy designed for roof ditches (door skin hem flanges) and rear body panels, including tail light areas, wheel well flanges, etc. Has a work time of approximately 15 minutes and can be painted in 30 minutes increasing productivity.	Two-part epoxy for use in vertical or horizontal seams to match OEM sealers. Non-sagging, non-flowing, and easy to tool. Paintable in 30 minutes, worktime, 10 minutes. No shrinkage or cracking.	Two-part epoxy with corrosion inhibitors for use on vertical or horizontal bare metal seams. Heavy-bodied, non-sagging, non-flowing, and easy tooling formulation for matching OEM seam sealer appearances. Paintable in 30 minutes, worktime, 10 minutes. No shrinkage or cracking.	Used to duplicate factory doorskin seams, as well as various other factory seams. Flows slightly and softens on the edges, without tooling, giving a rounded appearance.
Part Number	08307	08308	08310	08323
UPC	0-00-51131-08307-3	0-00-51131-16808-4	0-00-51135-08310-9	0-00-51135-08323-9

Description	 For removing woodgrain vinyl and vinyl stripes from acrylic enamel surfaces. Jelly-like consistency keeps remover in place on vertical surfaces to promote fast action when sprayed from the aerosol can.	 Cleans off adhesive residue after woodgrain vinyl or vinyl stripes have been removed. Fast-acting remover can be used on all acrylic enamel painted metal surfaces.	 Designed to be used with an air chisel to remove bonded moldings but can be used by hand to remove emblems and scripts.
Part Number	08907	08908	08978

## Accessories

### Welding Accessories

	05912	05916	05917	05919
Description	 Dispenses single rolls of 24 inch 3M™ Welding and Spark Deflection Paper. Can be wall or table mounted. Very easy to assemble.	 A fire retardant paper used to keep welding spatter and grinding sparks from damaging glass and painted surfaces.	 Aerosol coating designed to be applied to metal surfaces prior to welding to provide corrosion protection after welding. Dries fast with minimum spatter. Meets MIR requirements.	 Unique fabric that provides the ultimate protection from welding spatter and grinding sparks. Unlike other fire resistant blankets the 3M™ High Performance Welding Drape can take extreme heat, sparks and spatter, and not burn through.

### 3M™ Welding Respirator Replacement Filters

	07000	07184	29113	37173
Description				
	This NIOSH-approved P100 particulate filter helps provide respiratory protection in environments containing certain oil and non-oil based particles when combined with 3M™ Half and Full Facepiece Respirators according to NIOSH approvals.	P100 particulate filter helps provide respiratory protection in environments containing certain oil and non-oil based particles. 3M recommended for nuisance level organic vapor relief. Use with 3M™ Half and Full Facepieces according to NIOSH approvals.	Replacement part for 3M™ Full Facepieces 7800S. Use to attach 3M™ Filters 2000 Series, 3M™ Filter 7093, 3M™ Cartridges 6000 Series or 3M™ Dual Airline Systems.	This cartridge/ filter is NIOSH approved and provides the highest level of protection against oil and non-oil based particles. Use with 3M™ Half and Full Facepiece Respirators 6000 Series, Half Facepiece Respirator 7500 Series and Full Facepiece Respirator 7800 Series with bayonet filter holders.

# Wheel Weight System

## Wheel Weight System

	61403	61405	61458	61479
Description	 <p>3M™ Wheel Weights PN61403 (TN4715) are lead-free, flexible, conformable, high profile weights used to balance tires. Cut to exact length for better balance and ride, one product replaces dozens of clip on weights. Corrosion and stain free. Uses 3M Adhesive for superior performance.</p>	 <p>3M™ Wheel Weight PN61405 (TN4023) is a 23 mm thick, high profile, lead-free, flexible, conformable weight used to balance tires. Cut to exact length for better balance and ride, one product replaces dozens of clip on weights. Corrosion and stain free. Uses 3M™ Attachment Tape for superior performance.</p>	 <p>A self-contained cleaning system with citrus-based solution in a bottle with a Scotch-Brite™ scrubbing applicator tip. Used to remove grease, oil, dirt, brake dust and tape residue to prepare the wheel rim surface for the 3M™ Wheel Weight product.</p>	 <p>3M™ Wheel Weight Universal Cutting Tool PN61479 (TN201) is used to easily cut 3M™ Wheel Weights to exact length. Easy to read scale determines exact weight in gram or 1/4 oz increments. 3 replacement blades included in the handle.</p>

**Product Use:** Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. Given the variety of factors that can affect the use and performance of a 3M product, user is solely responsible for evaluating the 3M product and determining whether it is fit for a particular purpose and suitable for user's method of application.

**Warranty, Limited Remedy, and Disclaimer:** Unless an additional warranty is specifically stated on the applicable 3M product packaging or product literature, 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. If the 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

**Limitation of Liability:** Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
