

REINFORCED PAPER, HIGH STRENGTH

# WATER ACTIVATED TAPES

For some hand-applied corrugate packaging applications, you demand a tape that provides high tensile strength and tamper-evident seals. It's why Shurtape WP Series Water Activated Tapes are designed to form an instant, aggressive bond to most corrugated surfaces – to deliver the strength and security you need without worry of pilferage.

Designed for light- to heavy-duty sealing applications, WP Series reinforced paper tapes feature a starch-based, water-activated adhesive that forms a strong bond with most corrugated surfaces, offering tamper-evident seals. In addition, fiberglass and PET reinforcing filaments provide excellent tensile strength and optimum security for a range of packaging applications. For added security, WP Series tapes are available with custom print messages for delivery of goods without pilferage.

REINFORCED PAPER TAPE

# WATER ACTIVATED TAPES

		MD Pattern	MD Spacing	MD Tensile Strength	CD Tensile Strength	CD Spacing		
<b>GP 100</b>		<b>Light duty gum paper tape. Starch-based water activated adhesive with fiberglass reinforcing filaments.</b> <ul style="list-style-type: none"> <li>• Internal packaging for items placed in a secondary container</li> <li>• Aggressive adhesive that becomes part of the box</li> <li>• 100% recyclable/biodegradable</li> <li>• Paper sheet weight of 57 lbs</li> </ul>		N/A	N/A	44 lbs/in width	20 lbs/in width	N/A
<b>WP 100</b>		<b>Economy grade reinforced paper tape. Starch-based water activated adhesive with fiberglass reinforcing filaments.</b> <ul style="list-style-type: none"> <li>• Sealing of lightweight cartons with minimal exposure to handling, shipping and load stress</li> <li>• Aggressive adhesive that becomes part of the box</li> <li>• Paper/adhesive 100% biodegradable</li> <li>• Directly printable</li> <li>• Top sheet weight of 20 lbs, bottom sheet weight of 25 lbs</li> </ul>		1-1-1-1-1	9/16 in	56 lbs/in width	27 lbs/in width	1 in
<b>WP 200</b>		<b>Production grade reinforced paper tape. Starch-based water activated adhesive with fiberglass reinforcing filaments.</b> <ul style="list-style-type: none"> <li>• Recommended for medium weight cartons in normal manufacturing and shipping environments</li> <li>• Aggressive adhesive that becomes part of the box</li> <li>• Paper/adhesive 100% biodegradable</li> <li>• Strong, conformable, directly printable</li> <li>• Top sheet weight of 23 lbs, bottom sheet weight of 25 lbs</li> </ul>		1-1-1-1-1	9/16 in	53 lbs/in width	27 lbs/in width	1 in
<b>WP 300</b>		<b>Performance grade reinforced paper tape. Starch-based water activated adhesive with fiberglass reinforcing filaments.</b> <ul style="list-style-type: none"> <li>• Recommended for critical closure of medium weight cartons subjected to handling stress</li> <li>• Aggressive adhesive that becomes part of the box</li> <li>• Paper/adhesive 100% biodegradable</li> <li>• Conformable, directly printable</li> <li>• Top sheet weight of 25 lbs, bottom sheet weight of 25 lbs</li> </ul>		2-1-1-1-2	1/2 in	75 lbs/in width	30 lbs/in width	1.5 in
<b>WP 400</b>		<b>Heavy duty grade reinforced paper tape. Starch-based water activated adhesive with fiberglass reinforcing filaments.</b> <ul style="list-style-type: none"> <li>• Recommended for critical closure of medium weight cartons subjected to handling stress</li> <li>• Aggressive adhesive that becomes part of the box</li> <li>• Paper/adhesive 100% biodegradable</li> <li>• Conformable, directly printable</li> <li>• Top sheet weight of 25 lbs, bottom sheet weight of 30 lbs</li> </ul>		2-2-1-1-2-2	1/2 in	80 lbs/in width	31 lbs/in width	17/32 in
