

PRODUCT SPECIFICATION REPORT

Powerful, fast-acting, spray on stove and oven cleaner in an aerosol form. Stove and Oven Cleaner is a combination of alkalis, penetrants, activators, solvents, emulsifiers, and thickening agents to combat the toughest of soils.

STOVE & OVEN CLEANER™

PROD.#0271

Powerful, Fast-Acting, Aerosol Stove and Oven Cleaner

FEATURES/BENEFITS:

Powerful Cleaning Action	Cuts through heavy grease and baked on carbon with ease and reacts with soils converting them into soluble soaps for easy removal.
Thickened formula	Clings to sides, roof, and racks. Stays in place for prolonged contact time.
Reduces labor	Eliminates scrubbing and scraping. Soils are easily removed by wiping with a damp cloth or sponge.
Will not harm most surfaces	Will not affect common oven surfaces such as glass, chrome, iron, stainless steel, and baked enamel. Avoid contact with aluminum, painted surfaces, flooring and copper or coppertone surfaces.

APPLICATIONS:

Recommended for kitchens, lunch rooms, cafeterias, restaurants, dining rooms, and grills for cleaning stoves, ovens, ranges, rotisseries, drip pans, hoods, pots, and pans (not aluminum or copper), etc. NOTE: Avoid contact with floors and painted surfaces. Do not use on self-cleaning or continuous cleaning ovens. For use in: Bakeries, Eating & Drinking Establishments, Operators of Apartment Buildings, Child Day Care Services, Hotels & Motels, Schools & Educational Services, Cleaning & Maintenance Services and Nursing Homes & Hospitals
