

PIG® Water-Activated Flood Barrier

WTR013 Ideal For Ongoing Protection at Doorways, Entrances, 6.5" W x 10' L x 3.5" H When Full, 2 each

Long barriers do the job of multiple old-school sandbags, covering more ground for quick, easy protection from floodwater.

- Long, flat sacks contain super absorbent polymer that swells on contact with water to form a solid, heavy barrier
- Sandbag alternatives are lightweight, compact and easy to handle prior to activation; place in flood-prone areas when you know water is coming
- Sandless solution eliminates the mess, heavy lifting and manual labor of filling standard bags with 40 lbs. of sand
- Built-in wedge design helps prevent barriers from rolling out of place
- 10'-long sandbag replacement is ideal for stopping water in front of a double-door entrance or single-bay dock door
- NOTE: Not for use with salt water

Specifications

Traffic	Non-Weight Bearing
Dimensions When Full	6.5" W x 10' L x 3.5" H When Full
Capacity	8.5 gal. per Barrier
Color	Black
Dimensions	9.5" W x 10' L x 0.25" H
Height When Full	3.5" When Full
Ideal For	Ongoing Protection at Doorways, Entrances
Install/Deploy Type	Temporary/Removable Barrier
Temperature Limit	Works from 32°F to 180°F
Sold as	2 per bag
Weight	2.8 lbs.
# per Pallet	100
Composition	Skin - Polypropylene Filler - Polymer
UNSPSC	24101907

Metric Equivalent

Dimensions	24.1cm W x 3m L x 6.4mm H
