VELCRO® Brand Trade Range

Consider this...

Two inches off on a measurement could cost an entire sheet of material, hardware, and cause potential surface damage with traditional fasteners.

VELCRO® Brand adhesive backed fasteners allows the user to reposition material as if it never happened. Saving valuable time and materials.

Our ONE-WRAP® tape is the safe, reusable, adjustable alternative to plastic cable ties making it a more sustainable product for the environment.

Avoid pinching fiber optic cables and degrading their performance. Our ties do not over tighten.

Save time and money by not having to cut and waste plastic ties when wires need to be added, removed, or repositioned.

PRODUCT INFORMATION			
Applications	Indoor general use applications with a moderate Peel and Shear that require high cycle life	Outdoor general use applications that require a moderate closure strength and high cycle life	Networks, electrical, air conditioned, ducts
Width	1", 1 1/2", 2"	1", 2"	1/2", 3/4", 1"
Quantity	25 yards of Hook tape 25 yards of Loop tape	25 yards of Hook tape 25 yards of Loop tape	25 yards of Self-engaging tape
Color	White 010 and Black 330	Black 330	Black 330
Includes Adhesive	Water Based Acrylic 72 Adhesive	Hot Melt Rubber 13 Adhesive	No Adhesive
Nailed, Stapled, Screwed	✓	✓	✓
Adhesive Strength	Average Peel: 8.0 PIW	Average Peel: 8.0 PIW	-
Adhesive Operating Temp	-30°F to 140°F	-30°F to 110°F	-

CLOSURE INFORMATION			
Material	Nylon	Polyester	Nylon and Polyethylene
Cycle Life	High	High	25 yards of Self-engaging tape
Peel	Average Peel: 1.7 PIW	Average Peel: 0.8 PIW	Average Peel: 0.5 PIW
Shear	Average Shear: 8.0 PSI	Average Shear: 14 PSI	Average Shear: 23 PSI
