Get It Soldered

Weller Efficiency — the most powerful station in its class now in a new design

Weller®

WE soldering station

Weller introduces a new soldering station designed for vocational and professional uses. The WE station is ready when you are — just switch it on and start soldering.

ADVANTAGES AT A GLANCE

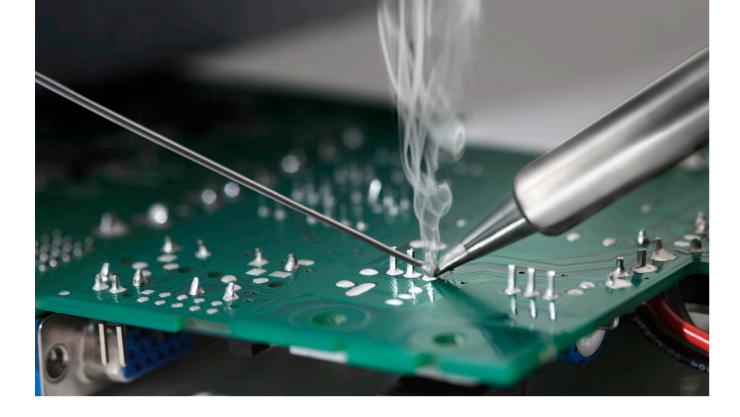

Powerful, user friendly and cost-efficient

- 40% more powerful gets your soldering job done faster
- > Easy to handle high performance iron
- > Intuitive navigation
- > Low total cost of ownership

Maximum reliability and protection

- ESD safe station, iron, and heat-resistant silicon cable for safe handling
- Reinforced safety rest for secure iron storage
- Temperature stability
 (+/- 4°F, 2°C) and
 temperature lock protects tips
 and components, affording
 a consistently high quality
 process with repeatable
 soldering results
- Standby mode and auto setback conserves energy, protects equipment
- Password-protected to preserve settings

2 | WE SOLDERING STATION

Get it soldered with the WE soldering station...

Gets your soldering job done faster

Digital 70 W soldering station, 40% more powerful than the WES/WESD station. This allows the iron to heat up faster and to provide a faster recovery time – gets the job done quicker with more efficiency and precision.

Easy to handle high performance iron

New high performance 70 W soldering iron with an ergonomic handle and easy toolless tip change solution:

- The iron was designed in a light weight pencil style with a co-molded grip.
- > The new and improved safety rest has additional support so that the iron is stored securely in place in between use.

Intuitive navigation

- > The station is designed in a state-of-the-art housing with front panel power switch for easy access.
- The digital WE soldering station features an easy-toread LCD screen with 3 push buttons providing easy temperature control, a front switch for easy on/off and intuitive navigation through all new SW features.

Easy tip change and low total cost of ownership

- > Change hot tips out by hand by twisting the plastic knurled nut on the soldering pencil without an additional tool.
- > The soldering set and the genuine Weller ET series tips provide the best performance and an extraordinary lifetime.
- Choose from a wide selection of existing high quality, affordable, genuine Weller ET tips. Here's where the station starts to pay for itself.

...with improved features

Safe handling

- > ESD safe
- Both station and iron have passed inspection and have received a Certificate of Compliance for electrical safety (CE, UL)
- The flexible silicon cable withstands heat because it meets the highest industry standards for mechanical strength (overload/stress). Because it's certified ESD safe, the WE station can be used for professional use.

Temperature stability

- > +/- 4°F, 2°C (even better than MIL Spec)
- Temperature lock stabilizes heat levels to protect tips and components and aid in producing uniformly high quality solder joints - reliable and repeatable soldering results

Standby mode

 Station automatically powers down to a given temperature when not in use

AUTOMATIC SET-BACK

Automatic set-back

> Sets temperature back automatically when not in use to save energy and increase tip lifetime

Password-protected

 All settings can be secured with a password, so that predefined settings can be maintained in order to ensure process quality

4 | WE SOLDERING STATION weller-tools.com | 5

ET soldering tips

The sensor hole in the base of the tip is fitted with a stainless steel liner to prevent the tip from seizing to the sensor.

Still your **favorite**

All this and more, the WE soldering station set will remain your reliable standby for a soldering station and iron, and with proper care will give you many years of satisfying service.

Technical Data

Dimensions L x W x H	150 x 125 x 100 mm 5.91 x 4.92 x 3.94 inches
Power supply	120 V / 60 Hz
Power	70 W
Temperature range	200°F-850°F; 100°C-450°C
Temperature accuracy	+/- 17°F , 9°C
Temperature stability	+/- 4°F , 2°C
ESD safe	yes
Supplied tip	ETA
