Simple By Nature. Simple By Design.

REVOLUTIONARY GREEN ENERGY SYSTEM THAT TRANSFORMS LIGHT INTO POWER

LumeCel™ captures energy from regular indoor lighting

Like a solar panel capturing energy from the sun, LumeCel captures energy from any indoor light source.

1 = 30*

One LumeCel Rechargeable Energy Cell will last as long as 30 conventional alkaline batteries.

*based on typical dispenser settings

LumeCel™ is Smart

LumeCel's rechargeable energy cells are super-efficient. They store energy from light and provide internal electrical power at nearly 100% efficiency.

LumeCel™ lasts for years and years

This globally-patented revolutionary green energy system is completely self-powered and guaranteed to run automatically for at least 15 years.

LumeCel™ saves time & money

Staff will no longer need to purchase, store, replace and dispose of batteries.

LumeCel is also virtually maintenance free, reducing the potential of workplace mishaps or accidents.

LumeCel™ is Clean

LumeCel is 100% recyclable and eliminates the need to manufacture, use and dispose of alkaline batteries. This equals no continual landfill or toxic alkaline battery disposal fees, minimal environmental impact and a higher LEED certification.

550 million

pounds of alkaline and lithium batteries go into landfills, globally, every year. With LumeCel, you're no longer a contributor to this waste stream.
