FACTORY REFURBISHED – Get an Industry-Favorite 4-Gas Monitor at an Exceptional Value

For personal or confined space monitoring, the Ventis® MX4 is useful in a variety of industries including electrical/gas utilities, steel production, oil and gas, chemical, fire services, and water/waste water treatment.

To warn users in hazardous areas, the unit uses a combination of three alarms: ultra-bright LEDs; 95 dB audible alarm; and a powerful vibrating alarm.

Only instruments that pass a rigorous multi-point inspection are included in this program. The CPO Ventis MX4 Monitor is certified once it passes a factory inspection checklist to ensure that all components perform as originally designed, and then is backed by a one-year warranty.

- Monitors 1-4 Gases
- Configures With or Without a Pump
- Available With a Black or Safety Orange Overmold
- O₂ Sensor – 6 Months Old or Newer
