VERISHIELD™ 100 SERIES PASSIVE EARMUFFS

Superior hearing protection in a lightweight design. Optimum comfort even over long periods of use makes them solutions users will want to wear.

FEATURES

- Large dimension range: Comfortably fits a wide range of head sizes. 17% more adjustable than earlier versions.
- Wide cup opening: Ideal for workers with larger ears, or who wear hearing aids. Opening area of the cup increased by 16% over earlier versions.
- Lightweight cushioned headband: Steel-wire construction with padded headband and precision micro adjustments designed for just the right fit around the ear.
- Memory foam ear cushions: New unique memory foam that combines denser and softer foam than previous models, for greater comfort and attenuation. Reduces squeezing pressure on the head and enhances comfort.

ROBUST CONSTRUCTION

- Steel wire framework
- ABS molded with internal baffle design for lighter weight, patent pending
- An oil-resistant cup surface to withstand oily, heavy-work environments and frequent cleaning

AIR FLOW CONTROL TECHNOLOGY

Featuring a baseplate chamber and high-tech non-woven layer, Honeywell's Air Flow Control technology controls how sound reaches the ear, ensuring optimum noise attenuation across all frequencies.

PPE INTEGRATION

Easy to use and integrate with Honeywell hard hats and face shields. Can be assembled to a hard hat in approximately 7 seconds.

ATTENUATION RATINGS

The attenuation level of each style is marked on the earmuff cup, for quick and easy on-site identification of the level of hearing protection provided.
