

# Stainless Steel Undercarriage

Series 6906

**REMCO**

## Tipping Handle

The handle allows for angled tubs to easily be tipped and emptied

## Built-in Tipping Stops

Stops limit the angle at which the undercarriage can tip, preventing the tub from slipping off of the undercarriage

## Caster Wheels

These wheels don't get caught or seize, even when rolling through meat fat

This tall, stainless steel undercarriage features castor wheels that are impervious to meat fat and bearings equipped with grease fittings. The undercarriage fits tubs 6905, 6901, 6911, and 6915 to provide an easy method of moving large amounts of product through a production facility. This model includes a built-in stop that allows the tub to be tipped and emptied.

**Stainless Steel Undercarriage**

6906

*Available in steel only*

This tub accessory meets all USDA specifications and is commonly used for meat, seafood, poultry, commercial fishing, confectionery, bakery, and grain applications. Replacement casters and wheels are available.

**The Color-Coding System**

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
