

Transport Storage Tub w/ Drain Plug

Series 6915

Remco

Easy-to-Clean Corners

Rounded corners and smooth angles don't trap contaminants and are easy to clean

Durable

High-density polyethylene construction makes these tubs a durable solution

Total-Color

Five total-color options allow for these tubs to easily integrate into a color coding system

Remco tubs and tub accessories offer a combination of durability and versatility. Manufactured from high-density polyethylene, they can be used for transporting, freezing, and storing. Tub are available as standalone items or with low steel undercarriages. This tub has been altered to include a drain plug, which is not currently FDA approved for food contact.

Transport Storage Tub w/ Drain Plug

6915

These tubs are commonly used for meat, seafood, poultry, commercial fishing, confectionery, bakery, and grain applications. The addition of a plug makes it easy to drain and clean tubs, and is ideal for seafood that needs to be kept in ice.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
