

Aero Tote Tub

Series 6921

REMCO

Easy-to-Clean Corners

Rounded corners and smooth angles don't trap contaminants and are easy to clean

Durable and Food Safe

High-density polyethylene construction makes these tubs a durable, food-safe solution

Stackable Structure

Formations on the bottoms and lids (optional) of these tubs allow for easy stacking

The Aero-Tote is a popular, well-constructed container. Its high-density polyethylene walls offer protection for all kinds of food products. The versatile modular design allows for secure nesting, stacking and in-plant moving with a forklift. These tubs meet all USDA specifications and are commonly used for meat, seafood, poultry, commercial fishing, confectionery, bakery, and grain applications. The Aero-tote tub can be used with optional lid and pallet.

Aero Tote Tub

6921

Available in white only

Note- 6921, 6922, and 6923 are each sold separately

These tubs meet all USDA specifications and are commonly used for meat, seafood, poultry, commercial fishing, confectionery, bakery, and grain applications. The Aero Tote Tub can be used with optional lid and pallet.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
