

Particulate Respiratory Protection for First Responders

Full-Facepiece Options: G1 Facepiece with APR Adapter

The G1 Facepiece can be adapted for particulate respiratory protection using an APR Adapter. The G1 single or twin port adapter snaps into place to cover a wide variety of respiratory applications. The single port adapter can be used with 40mm threaded particulate cartridges and canisters. The twin cartridge adapter can be used with the full line of Advantage® style respirator cartridges.

G1 APR Single Adapter

G1 APR Twin Adapter
