- Easily rotates to top of foot to allow driving, climbing or indoor use
- Specially formulated rubber pad provides unsurpassed comfort and durability

Prod. No. V3551170-O/S

THE GRIP THAT WON'T LET YOU SLIP.

The Qwik Grip Mid-Sole NDH is designed for wedge sole work boots where there is no significant gap underneath the arch and most of the sole touches the ground. The slim low-profile design makes this style ideal for footwear with little to no heel while still providing superior traction on ice and snow.

This product is covered by SureWerx against defects in materials and workmanship when the product is used for the purpose for which it was designed. Please refer to surewerx.com for more warranty information. SureWerx is not responsible for typographic errors.

Ice penetrating spikes are made from long-lasting "Military" Grade Tungsten Carbide materials and molded into a natural rubber traction pad to deliver unsurpassed comfort, grip and durability

Adjustable straps make it easy to outfit the entire team without having to worry about specific size requirements

Easily rotates to the side of foot when ice traction isn't needed. Ideal for walking indoors or work sites requiring driving or climbing

Reflective hi-viz material provides added visibility and safety

Ideal for wedge sole shoes where there is no significant gap underneath the arch
