

High Temp Large Hand Scraper

Series 6963

Remco

One-Piece Construction

Eliminates seams and crevices where bacteria can hide.

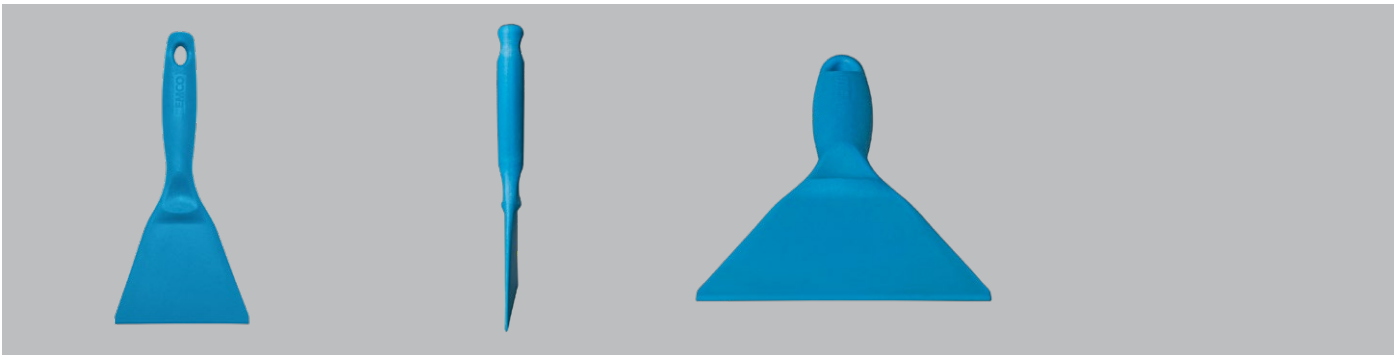

Thumb Indent

Allows the user extra power for scraping tough or sticky substances.

Narrow Scraping Blade

Ability to access tight spaces, such as conveyor belts.

This high temp hand scraper may be used in higher working temperatures than other polypropylene tools.

High Temp Large Hand Scraper

6963

This high-temperature large hand scraper is great for scraping hot cooking surfaces, such as griddles. It has no seams or cracks, which helps prevent bacterial growth.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
