EDUCATIONAL FACILITIES

MovinCool[®] Portable Spot Air Conditioners and Heat Pumps.

MovinCool portable spot air conditioners provide emergency backup, supplemental or permanent cooling for people and equipment, wherever and whenever it's needed. For situations where heating is also required, MovinCool portable heat pumps combine both cooling and heating in a single versatile unit. There are no dangerous gas lines to connect, and no hot surfaces, eliminating the risk of burns.

Applications

- **Emergency backup** – When your main HVAC system goes out, wheel in MovinCool to provide quick relief for students and staff — or to protect heat-sensitive electronic equipment from shutting down.
- **Supplemental** – MovinCool is a cost-effective solution for areas your main HVAC system doesn't reach, such as temporary buildings, or which have special cooling requirements, such as server and telecom closets. No structural modifications are necessary, and the units can be easily repurposed as your needs change.
- **Permanent** – For computer or telecom rooms that need to be kept cool at all times — including nights, weekends and holidays — a MovinCool unit can save you the expense of running your main HVAC system when the building is otherwise empty.

Roll it in. Set it up. Turn it on.

Ideal for...

Classrooms and offices
Computer and telecom rooms
Laboratories
Shops
Health facilities
Locker rooms
Sports facilities
Outdoor events

Another line of quality products by DENSO.

DENSO

MovinCool is a brand of DENSO Corporation, the world's largest manufacturer of spot air conditioners. MovinCool spot air conditioners and heat pumps are backed by a full three-year on-site parts and labor warranty — the strongest in the industry.
