

# Premium Roll Towels

Through Air-Dried (TAD) technology is a process through which the sheet is dried by passing air through the sheet as compared to the conventional dry or wet crepe paper machine process which uses heated dryer rolls. This TAD process results in a softer, stronger, and more absorbent sheet - which equates to more hand-dries per case.

## Premium • High Capacity • Absorbent

*These Tough Guy® TAD Premium Hardwound Roll Towels are Softer, Stronger and More Absorbent - perfect for high-end markets.*

### Grainger Item #: 60FG11

Plies: 1
