33-506 Pro Network/Telco Installer Kit

Professional grade tools to cut, strip and terminate twisted pair data cables including CAT5e and CAT6 in data and voice installations .

- Crimps industry standard CAT5e/CAT6 RJ-45 (8P8C) and RJ-11/12 (6P6C/6P4C) modular plugs
- Punchmaster™ II impact style punchdown tool with spring loaded mechanism delivers additional force to seat and cut conductors with less input force
- Includes two full blade sets – one of each 110 (Data) and 66 (Telco) – each has cut/no-cut ends
- Adjustable Ringer stripper for removing cable jackets.
- Scissors trim and straighten conductors
- Multi-bit screwdriver for panel and wall plate access
