Aluminum Dunnage Racks

Approved for use in freezers and displays, as well as packaging and storage areas; these heavy duty, all-welded aluminum racks keep product organized and off the floor. Many standard sizes are available to fit a wide variety of applications.

Heavy Duty: Weight Capacity up to 4000-lb

All welded construction with feet sealed and welded.

Standard: Weight Capacity up to 2000-lb

All welded frame, feet are fitted with plastic caps.

Mobile: Weight Capacity 1000-lb

All welded frame with caster plates welded in place. Four 5" plate type casters; two swivel, two rigid.

All Products on this page carry a...

- **5-Year Guarantee** against material defects and workmanship.
- **Lifetime Guarantee** against rust and corrosion.

Warewashing Rack

Ideal for transporting and storing cups and glassware from the service area to the back room. This cart eliminates the stacking and restacking of baskets by allowing quick, easy access to all dish baskets simultaneously; no contact storage prevents cross contamination and promotes faster drying time.

- Accepts 20" x 20" racks.
