

# 82 oz. Metal Detectable Hand Scoop

Series 6500MD

**Remco**

Color-coded plastic scoops support food safety material handling, cleaning and sanitation programs that are aimed at preventing cross-contamination. Metal detectable color-coded tools provide the ultimate step in quality assurance and safety for the food processing industry.

## 82 oz. Metal Detectable Hand Scoop

6500MD

Rugged hand scoops are useful for moving bulk materials and fit into professional cross-contamination containment, food safety and HACCP programs. The material used to produce these scoops can be identified by standard metal detection equipment.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
