

Food Grade Scoops

Hygiene | Sanitation | Safety

Remco™ Scoops for Material Handling.

Remco offers a variety of FDA-compliant scoops for moving all kinds of bulk materials. As part of a comprehensive line of hygienic material handling tools, Remco scoops are designed to minimize the risk of cross-contamination in wet or dry food processing. One-piece construction helps eliminate areas for bacteria to hide and multiply. The scoops are also chemical resistant and autoclavable. Available in a vast array of colors, Remco scoops support color-coding programs and hygienic sanitary and safety procedures throughout food processing facilities.

Hand Scoops 6300, 6400 & 6500

What: 16, 32 and 82 oz. hand scoops made of durable FDA-compliant injection-molded polypropylene.

Where: Great for handling bulk materials; variety of capacities meet the needs of different applications.

Why: Ergonomic design reduces user fatigue; durable handles withstand the weight of a full scoop.

Metal Detectable Hand Scoops 6400MD & 6500MD

What: 32 and 82 oz. metal detectible hand scoops made of FDA-compliant polypropylene resin with a semi-ferrous additive.

Where: For material handling in areas of high sensitivity; the semi-ferrous additive allows the product to be use in conjunction with a metal detectable system.

Why: Lightweight and less costly alternative to stainless metal scoops.

Mega Scoop 6550

What: 128 oz. mega scoop made of thick-walled FDA-compliant injection-molded polypropylene.

Where: Great for handling larger quantities of bulk materials.

Why: May be used for temporary storage for materials as well as to scoop; flat bottom enables it to stand on its own for ease of use.

Mega Dipper Scoop 6552

What: 128 oz. mega dipper scoop made of thick-walled FDA-compliant injection-molded polypropylene.

Where: Designed to be used with a European thread handle (sold separately) allowing for a longer reach in scooping up large quantities of bulk materials.

Why: Makes quick work of moving all kinds of bulk material; may double as a dustpan when attached to a long handle.

6550

Brand	Material	Dimensions	FDA Compliant
Remco	Polypropylene	11" x 9" x 7"	Yes

128 oz. Mega Dipper Scoop
6552

Brand	Material	Dimensions	FDA Compliant
Remco	Polypropylene	11" x 9" x 7"	Yes

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
