

### Features

- Only one part is needed to adjust box height from 12" to 24"
- Built-in, fold-out support straps attach to the stud for stability
- First means of conduit support included
- Height-adjustable to accommodate a variety of installation requirements
- Smaller 1" foot design helps prevent installation interference
- Center "finder" tab helps installer locate box position after drywall has been installed
- Ideal for prefab installations
- TEB23 provides far-side support
- Mounts 4" or 4 11/16" electrical boxes

The FMBS1824 floor-mount box support, part of the CADDY® line of fixings and fasteners from ERICO, is an innovative, height-adjustable solution for positioning 4" or 4 11/16" electrical boxes. The support has a variety of convenient features and is pre-assembled for ease of installation on the job site, making it ideal for prefab applications.

The FMBS1824 can be adjusted from 12" to 24", with a finishing height of 18". The TEB23 electrical box bracket is pre-installed and provides superior far-side support (if needed, a second TEB23 can easily be mounted for multi-gang installations). Built-in support straps attach to the stud to provide an exceptionally secure and stable installation.

Unlike other floor-mount supports, the FMBS1824 has a 1" foot design to prevent interference with stub-up conduits. A center tab can be folded out to be visible behind the drywall, allowing installers to easily identify the location of electrical boxes after the drywall has been installed. For datacomm installations, the FMBS1824 can be used with the MP1S single-gang plate mounting bracket and the MP1SCB single-gang box eliminator conduit support.

Part Number	Description	Standard Packaging Quantity
FMBS1824	Floor Mounted Box Support	10

### WARNING

ERICO products shall be installed and used only as indicated in ERICO's product instruction sheets and training materials. Instruction sheets are available at [www.erico.com](http://www.erico.com) and from your ERICO customer service representative. Improper installation, misuse, misapplication or other failure to completely follow ERICO's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death.
