

# The DMT® Difference is in the Performance

The world's best diamond surface for sharpening tools and knives

## SHARPENERS FOR EVERY WORKBENCH AND TOOLBOX

Diamond abrasives provide the fastest, easiest and most effective way to sharpen an edge. Only DMT® brand products ensure maximum performance from your tools because only DMT® sharpeners rank highest in diamond coverage, diamond uniformity and surface flatness. Together these qualities produce a superior edge time after time, year after year.

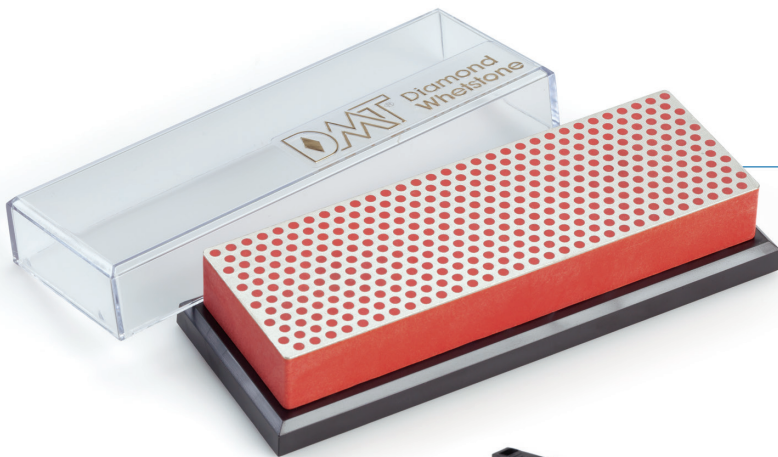

DMT® vs. the other brand

*Sharpens carbide saw blades, router bits, shears, cable cutters, masonry drills, carpet blades, linoleum knives, and more.*

### Diamond Whetstone™ Single-sided Bench Stone

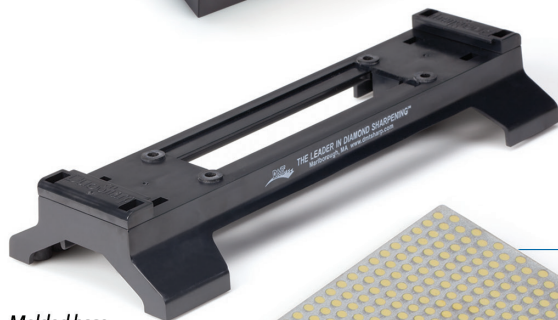

The signature polka-dot pattern innovated by DMT® provides an interrupted surface of tiny wells to trap metal debris and ensure clean, continuous edge contact while the superior diamond does its work.

MODEL	DESCRIPTION
3KT08	Sharpening Whetstone, 25 Micron (Fine)
3KT06	Sharpening Whetstone, 45 Micron (Coarse)
3KT09	Sharpening Whetstone, 60 Micron (Extra-Coarse)
3KT07	Sharpening Whetstone, 9 Micron (Extra-Fine)

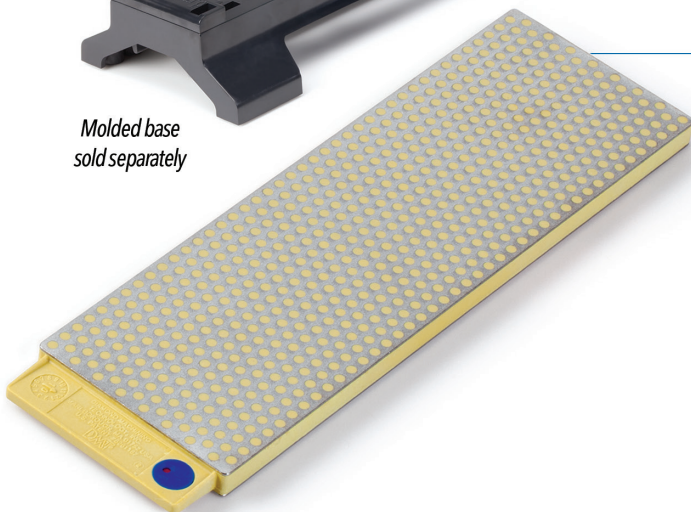

### DuoSharp® Double-sided Bench Stone

Innovative, multi-patented and engineered to be precision-flat, this sharpener provides two interrupted surfaces of superior diamond to allow two-stage sharpening with fast, clean and consistent results every time. Base sold separately.

Molded base sold separately

MODEL	DESCRIPTION
1RF73	Double-sided Sharpening Stone, 25/45 Micron (Fine/Coarse)
1RF70	Double-sided Sharpening Stone, 45/60 Micron (Coarse/Extra-Coarse)
1RF72	Double-sided Sharpening Stone, 9/25 Micron (Extra-Fine/Fine)
1RF71	Double-sided Sharpening Stone, 9/45 Micron (Extra-Fine/Coarse)
1RF66	Molded Base

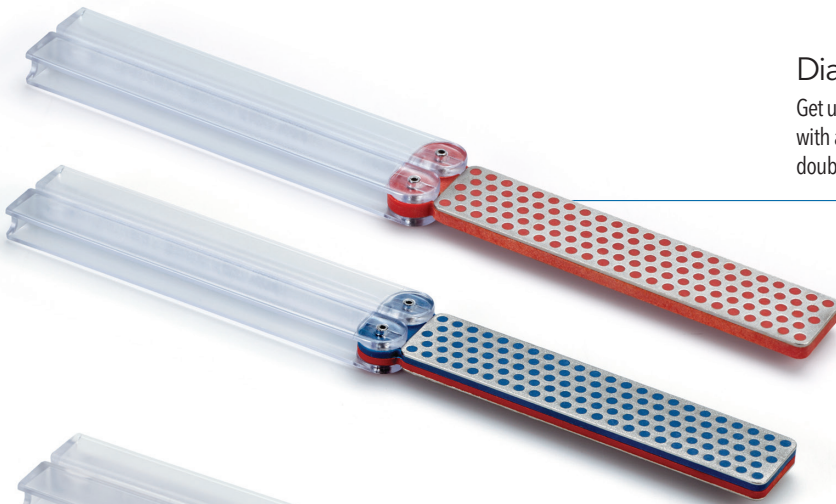

*For portable, hand-held sharpeners, see page 2.*
