

Features & Benefits

Choosing Duro Bag Mfg. Co. paper sacks is the right choice for the environment. All Duro's Paper Sacks are completely recyclable and made from a renewable sustainable resource.

Three sizes are available to meet a variety of needs and, because each size allows more items to be placed than plastic bags, they help with source reduction at the checkout counters.

The bags are durable and require no double bagging and customers can carry their loads with confidence.

And, with Duro's full service art department, a custom graphic design can be printed on the bags to advertise your customer's brand or special message.

For your customers and the environment – Duro's Paper Sacks are the Right Choice.

1/6th, 1/7th & 1/8th Bbl Sack Specifications
