## **Dynabrade's Two-Hand Tool Series**

Dynabrade's pneumatic Two-Hand Tools (Random Orbital, Gear-Driven and Dual Action Sanders) have been providing countless application solutions for many years. Now, as we continually strive for excellence and innovation, Dynabrade introduces our newly designed Two-Hand Tool Series! Featuring a more powerful air motor and many ergonomic improvements, these models provide the ultimate in tool efficiency and the best in operator comfort.

#### **Features & Benefits**

- Powerful Air Motor
   Innovative motor design is more efficient and offers 12% more HP (W)!
- Strong Single-Piece Handle
   New single-piece handle minimizes air leakage and reduces chance of breakage.
- Tool Weight is Reduced
   5" (127 mm) and 6" (152 mm) diameter models have been reduced in weight by as much as 7%. Lighter tools help lessen operator fatigue and increase overall efficiency.
- Lower Vibration Levels
   8" (203 mm) diameter Random Orbital Sanders and all Gear-Driven Sanders feature new gear and mounting plates that reduce tool vibration. Smoother running tools help reduce work-related injuries and can be operated for longer periods of time.

 Larger Vacuum Port Vacuum-Ready models have

Vacuum-Ready models have port for 1-1/4" (32 mm) diameter hose cuff, resulting in better vacuum flow.

- Thumb-Activated Speed Control
   Speed control lever is conveniently located for easy thumb adjustment.
- Safety-Lock Throttle Lever
   Offers increased safety by preventing accidental start-up of tool. Lever must be pulled back before activating tool.
- High-Quality Sanding Pad Included
   All tools include low-profile premium
   Dynabrade sanding pad. Use of weight-mated pad further reduces tool vibration.
