WE CAN!

FORT KNOX™

Modular Utility Storage & Workbench System

The Perfect Workspace Solution

UNIQUE GOLF LOCKER
for storing
golf bags and
all related
accessories

By combining our adjustable Rivetwell Shelving, Heavy-Duty All-Welded Cabinets, Workbenches and Locker/Drawer units we created a uniquely functional, yet durable modular system.

Full Door Cabinet 3 Drawer Cabinet 6 Drawer Cabinet Extra Heavy-Duty Storage Cabinet (shown with optional drawers)

The Fort Knox Modular Utility Storage & Workbench System provides everything you need to create your own perfect workspace solution.

Fabricated from heavy gauge steel and coated with our unique textured two-tone powder coat finish, our system will stand up to the most demanding users.

Our intelligent design allows each major component to be utilized stand alone or in conjunction with any of the other major components.

A WORK AND STORAGE SYSTEM THAT ALLOWS YOU TO CUSTOM DESIGN YOUR OWN WORKPLACE

FORT KNOX™ MODULAR SYSTEM FEATURES:

FORT KNOX SHELVING

Our versatile quick assembly Rivetwell shelving provides heavy-duty storage while allowing four sided access by eliminating the need for anti-sway bracing. Our four-sided beam design provides maximum decking capacity. Each unit includes 5 shelf levels including top and bottom and is available in choice of 36" and 48" wide units. Order additional levels as needed. The unique color combination of black uprights and red beams provides an attractive appearance and allows perfect integration into your custom configured system. We offer three decking choices. Order particle board or EZ-Deck steel decking for maximum capacity. Our featherdeck is perfect when a clean, lightweight solution is desired. Featherdeck will stand up to most chemicals and liquids.

FORT KNOX CABINETS

Fabricated of extra heavy-duty 14 gauge steel, reinforced doors and 1,400 lb. capacity adjustable shelves, durability is an understatement. Our best-in-class super-duty 13 gauge full height hinge and 3/16" ergonomically engineered cremona turn-handle insure proper door alignment and operation for a lifetime of use. Each cabinet includes 4 full-width shelves.

Doors are secured in the closed position with our high-security 3-point locking system which includes 3/8" diameter round locking rods that are held securely in place by welded-in pry-resistant retainers. These rods engage both the top and bottom of the cabinet door frame when the door is closed which the center latch rotates behind the slave door. Handle includes provisions for a padlock (locks not included).

Shelves are fully adjustable on 3" centers allowing you to maximize the cabinet's interior space. Shelves are rated at a whopping 1,400 lbs when loads are evenly distributed.

Cabinets are available in 36" and 48" widths and can accommodate our modular cabinet drawer units. With our durable textured powder coat finish presented in an attractive two-tone color combining a black body with red door, you can be sure our system will be the highlight of your workspace environment.

FORT KNOX CABINET DRAWER KITS

Each modular drawer unit is 15" high and is available in a 2-drawer or 3-drawer version. Drawers allow maximum weight bearing capacity by combining heavy 14 gauge construction with super-strength 500 lb. capacity full-extension glides. The full extension allows full use of each drawer.

Drawer units can be easily added to any Fort Knox and DuraTough All-Welded Cabinet allowing you to custom configure your cabinets to your specific needs. See pages 24-26 for info on our DuraTough All-Welded cabinets.

Note: Drawer units should always be installed into the lower portion of the cabinets to insure stability when opening the drawers. Only one drawer should be opened at a time.

FORT KNOX WORKBENCHES

Pedestal Units: Perfect as standalone units or as supports for our workbenches. These versatile all-welded heavy-duty modules are available in multiple sizes and configurations and provide

ample storage for tools.

Double Door Workbench Pedestals are perfect for storage of larger items. Our high security 3-point latching system is pad-lockable (locks not included).

Drawer Workbench Pedestals are engineered for years of smooth operation while the ergonomic handles add style. Our full-extension drawer glides allow full use of drawer space. Available in both 6-drawer and 3-drawer models.

FORT KNOX WORKBENCH TOPS

Choose from rugged steel, laminated hardwood and composite core resin board workbench tops. Each is 1-3/4" thick and provides a perfect working surface.

FOR KNOX WORKBENCH ACCESSORIES

Steel Pegboard Panels are engineered in three convenient sizes to fit perfectly into our Fort Knox System. Our unique design allows panels to be wall mounted or attached to the sides of our Fort Knox lockers and cabinets. Our heavy-gauge design is perfect for industrial applications.

Pegboard Shelves mount to the pegboard providing shelf space exactly where you need it. Available in three sizes.

Lower Pedestal Shelf mounts between two bench pedestals to provide out of the way storage. Available in three lengths to work with most pedestal configurations.

Side and Back Rail Kits provide edging to your workbench surface to prevent items from sliding and/or rolling off. Perfect when workbenches and being used stand alone.

Electrical Power Bar provides additional power when needed. Available to match both 60" and 72" wide workbenches.

Light Kits provide a convenient way to illuminate your work surface. Each light kit easily attaches to our steel pegboards allowing you to mount the light where it is needed the most.

FORT KNOX LOCKERS

Our all-welded heavy-duty Fort Knox lockers are available in multiple sizes and configurations allowing maximum versatility. All doors include a stainless steel recessed handle with padlock hasp (locks not included).

Full Door Lockers includes an upper fixed shelf with four adjustable stainless steel shelves.

Combination Lockers include three stainless steel adjustable shelves with choice of 3 or 6 lower drawers. Drawers are interchangeable with our pedestal drawer units.

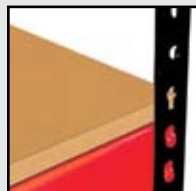

Golf lockers are engineered specifically for the golfer allowing ample space for your golf bag.
