FOR THE ONES WHO GET IT DONE

SNOW FENCE

This Plastic snow fence was designed to use as snow control, as it can act as windbreak, causing blowing snow to be deposited as drifts where it is stored.

Can be used around parking lots, airports and industrial facilities and also ideal for the homeowner for use along driveways and walkways to reduce drifting and clearly mark access. It can also be used as a Warning Barrier or crowd control.

- ✓ Will not rust, corrode or rot.
- ✓ UV Protected.
- ✓ Economic and durable.
- ✓ Controls drifting on driveways and walkways.
- ✓ Easy to transport.
- ✓ Highly visible
