FOR THE ONES WHO GET IT DONE

SAFETY FENCE

This heavy-duty, plastic fence is made for hazard protection or for use as a property delineator. It is a great alternative to traditional wire fencing. Ideal for short-term applications such as construction sites, newly-paved or sealed driveways and / or unsafe areas.

- ✓ Highly visible in dangerous areas such as construction sites.
- ✓ Economic, lightweight and durable.
- ✓ Will not rust, corrode or rot.
- ✓ Treated for UV resistance
- ✓ The plastic material bends easily to form the barrier shape you need.
- ✓ Easy to transport
